

Waste Minimization

Service Description

As a member of the Cities for Climate Protection program (CCP), compliance with Environmental Management Systems and ISO 14000 standards, Glenorchy City Council is committed to achieving environmental excellence. Waste Minimisation is a key concern of Glenorchy City Council, and as such Council has put in place a number of strategies and programs designed to encourage the reduction of waste within the community. This section outlines some of the strategies and programs Council has put in place to achieve the aim of reducing the amount of waste throughout the community.

Education Programs:

Tours of Council's Landfill and Resource Shop can be organised for schools and community groups by contacting the Environmental Health Office on 6216 6797. Since the formulation of the Southern Waste Strategy Association (SWSA), it has assumed much of the responsibility for providing direction in the waste minimisation area. As an active member of the SWSA, Glenorchy City Council encourages residents, businesses, schools, and community groups to participate in any of the programs conducted by the SWSA, including such programs as;

Clean Schools Challenge

Clean Business Awards

Don't Waste Tasmania Campaign

Public Place Recycling

Major Events Recycling

Various case Studies and Investigations

How to use this Service

For more information on waste minimisation programs supported and implemented by Glenorchy City Council and/or the SWSA, please visit their website at <http://www.southernwaste.com.au>.
