

## Purchasing an Anti-Barking Collar

The "NO SHOCKS" , "NO PAIN" humane, effective solution to control nuisance barking.

**ABS Anti-Barking Collar** device allows you to reduce or eliminate barking without the nasty after-effects of punishment. In fact, the citronella spray is not punishment. It disrupts behaviour without inflicting fear or pain to the animal. It has been recognised that it eliminates barking faster than any other method, whether you are there or not. If you are at grips with problem barking, we strongly urge you to act now. The longer you let the situation degenerate, the more the barking will persist.

Glenorchy Council Animal Management Officers can order our dog owners an **ABS Anti-Barking Collar** upon request.

Currently a kit costs \$210.00.

Refills cans of citronella are \$20.00

Replacement batteries cost \$ 10.05.

Payment options for purchasing a kit are in full or using a direct debit method set up with our accounts program.

The kit includes

- Electronic Bark-Sensing Unit
- Adjustable Collar
- 70g Refill can of Citronella
- Two 6-volt Alkaline batteries
- Detailed Instructions
