Part 1 About Council

The 2015-16 financial year has proven to be a particularly challenging one for Glenorchy City Council and the community it represents. The Minister for Local Government, Peter Gutwein, established on 14 October 2015 a Board of Inquiry into the Glenorchy City Council. The Minister established the Board of Inquiry because he was satisfied that:

 following considerable and ongoing public concern and investigations by the Director of Local Government, significant divisions continue to exist within the Glenorchy City Council as well as between elected members and senior staff;

Mayor's Message

- such divisions and poor relationships adversely impact on governance arrangements and are not conducive to good decision making; and
- all efforts to overcome the divisions within the Council have failed

The terms of reference for the Board of Inquiry are broad and cover the arrangements and practices since the October 2014 election in relation to:

- Section 28 of the Local Government Act 1993 ('the Act') – compliance by elected members of Council with their functions under the Act;
- Section 27 of the Act compliance by the Mayor with her functions under the Act;
- Sections 62 and 63 of the Act

 compliance by the General

 Manager with his functions and powers under the Act; and
- Compliance with any other sections of the Act relevant to governance arrangements and practices within the Council.

The Board of Inquiry is to further examine the governance structures

and processes adopted by the Council during that period. The Board is also to inquire into any claims of non-compliance or breaches of the Act and associated regulations, or any other legislation, since October 2014, brought to its attention during its deliberations.

Members of the public, aldermen and staff were provided the opportunity to make submissions.

Whilst it was hoped that the Board of Inquiry would complete its investigations and provide a report to the Minister by mid February 2016, legal action taken in the Supreme Court against the Board of Inquiry by Ald Branch-Allen (and later joined by Ald Slade, King, Lucas and Pearce) delayed the investigation considerably. The delays have been further compounded by the failure of some parties to provide information to the Board in the timeframes requested.

The consequence of the delay has meant that Council staff have had to continue to provide "business as usual" services as the investigation continues, and in the midst of a sometimes tense

political environment. I wish to acknowledge the stressful and uncertain environment in which they have worked and thank them for the way in which they have professionally continued to deliver services to our community.

It is important that the community have faith and confidence in their elected representatives and the governance arrangements and practices of Council. The Board of Inquiry process will allow the issues to be identified and provide recommendations on how to address them in the best interests of the community. I thank the community for their patience, support and understanding whilst we undergo this important process.

Glenorchy was again successful in the Annual Keep Australia Beautiful awards, being named Tasmania's sustainable city for the second consecutive year and winning a number of other awards.

This is fitting recognition for the ognoing work many community groups, individuals, and Council do in our community.

In a positive for Council's finances as well as the environment, Glenorchy's energy-efficient street lighting project has realised some significant saving including almost halving energy usage and costs, and significantly reducing our carbon footprint. Importantly, these savings and environmental benefits will continue on into the future.

I also wish to acknowledge the contributions of the Community Precincts. The Community Precinct members have contributed significantly to the health and wellbeing of our community over many years and proved to be an invaluable mechanism for community consultation.

Whilst a recent decision of Council has terminated the Community Precinct Program I have no doubt that they will leave a lasting and positive legacy of community engagement and participation. I extend my deepest gratitude to those involved for the countless hours of volunteer time they have provided, the activities they have facilitated, and their honest and valued feedback to Council.

At the request of the Minister for Local Government, Peter Gutwein, Glenorchy has commenced a study with other Councils on the potential for amalgamation, and while we are open to considering what may be viable options, our position remains that any proposal must clearly and demonstrably be in the best interests of the City and the community of Glenorchy before we progress beyond an initial investigation.

Finally, I would like to extend my personal thanks to the community for the support they have offered me. I give my assurance that I shall continue in the role of Mayor and to focus on my commitment to delivering the transparency and accountability our community deserves and needs and a City which we can all take pride in.

Kristie Johnston Mayor

General Manager's Report

I am pleased to present a detailed report covering the Glenorchy City Council's key achievements over the past year, as well as the financial statements for the financial year ending 30 June 2016.

The year in review was one of considerable challenge for Glenorchy City Council following the establishment of the Board of Inquiry into the Council by the Minister for Planning and Local Government, Peter Gutwein MP in October 2015.

Despite this challenge, Council did not deviate from its main goal of proudly delivering a continuing high standard of service to our community, visitors and businesses in the City of Glenorchy.

This Annual Report details the performance against the four directions set out in the Council's Interim Strategic Plan 2013-18 and the actions taken towards achieving Council's vision of being the best place in Tasmania to live, work and play, both now and into the future. The report also provides details of Council's financial achievements for the 2015-16 year and its compliance with legislative requirements.

Financial Sustainability

In October 2014, Council made a decision to build a financially strong organisation in order to provide sustainable services to our community and the City of Glenorchy. Council's goal was to be in a surplus position by end of the 2016-17 financial year, through the removal of its operating deficit of \$4.892 million. I am pleased to advise that Council has achieved this surplus position, and has done so one year prior to its target date. Council's financial statements are very strong and demonstrate a healthy cash flow position.

Achievements

As General Manager, I am proud to report Council's achievements for the last financial year.

Council successfully completed the federally funded Derwent Park Stormwater Harvesting and Industrial Reuse Project which will collect and treat stormwater that previously resulted in significant flooding of sections of the Brooker Highway during periods of heavy rainfall. This innovative, environmentally sustainable project is unique in Tasmania and one of the largest of its kind in Australia. The project will replace the equivalent of 190 Olympicsized swimming pools of quality water currently being used for industrial and irrigation purposes with treated stormwater. The project was recognised with a win in the Keep Australia Beautiful awards in 2014, and in 2015 was highly commended in the national Keep Australia Beautiful Environmental Sustainable category. Glenorchy has been named Tasmania's Sustainable City for two consecutive years.

Council was also a winner of the Young Legends category in the 2015 Keep Australia Beautiful awards for its achievement supporting a range of sustainability programs and projects for young people of our community. Initiatives recognised included the Benjafield Child Care Centre, Waste Management Schools Program, Rosetta Primary School, Glenorchy Youth Task Force and Seriously Smashed program. These awards provide a clear indication of the value of the excellent collaborative work of Council employees and community members, as well as Council's important investment in the younger members of our community.

The newly opened Moonah Arts Centre and the Derwent Entertainment Centre continue to be the heart of arts, culture and music in the City of Glenorchy. Importantly, their contribution extends beyond the boundaries of our City, attracting world-class events to Tasmania with audiences comprised of people from throughout the State. Glenorchy hosted 115 live ticketed events during the 2015-16 financial year with shows and performances including Cirque du Soleil, Cats and Tom Jones as well as numerous performances by local artists and theatre companies, and many more.

On the sporting front, Council is eagerly planning the grand opening of the King George V Sports and Community Facility Project before the end of 2016. This major project provides exciting new community and sporting facilities for our community and the City of Glenorchy.

Glenorchy City Council is achieving valuable savings and enhanced community safety as a result of the installation of energy efficient LED street lighting over the past 12 months. The initiative has almost halved Glenorchy's electricity usage for street lighting from approximately 2,200 MW hours per year to 1,300 MW hours, with a similar reduction in associated energy costs and carbon footprint. In 2013-14 Council spent more than \$1.06 million on street lighting. In 2015-16 the cost was \$624,000, a

difference of more than \$430,000 and the savings will be ongoing.

In a joint project with the Hobart City Council, partly funded by a Commonwealth grant, some 2,800 older technology street lights were replaced on residential streets in Glenorchy. Council also upgraded floodlights at Abbotsfield Sport Ground.

Council has also progressed its initiative for the revitalisation of Main Road Glenorchy, between Terry Street and Barry Street, with the release of concept designs. The draft concept designs and associated video show how the street and surrounding spaces might look and feel, with 'before and after' pictures showing proposals including road layouts, paving, seating, bike racks and planting. The aim of the revitalisation is to create a vibrant city centre, reflecting Glenorchy's distinct character and to provide a place that is inviting for investors and customers, and is a great place to do business. The community will be invited to give feedback directly and via the Council website.

The community feedback and comments will assist the urban design team and Council with review and revision of the draft concept designs and plans before they are finalised in December 2016.

Governance

I am pleased to report that as well as delivering these successful projects for our community and City, Council's achievements included the further development and improvement of our governance structure, processes and procedures.

In the past financial year, Council commenced a review of its forward strategy to develop a 10-year Strategic Plan 2016-2025 which will flow from Council's Community Plan 2015-2040 by incorporating the community's goals into our strategy for the future. The draft Strategic Plan will be open for public consultation in late 2016.

As part of its strategy, Council also revised its 10-year Long-Term Financial Plan and four-year rolling Annual Plan to ensure that this key suite of documents required under State legislation are in line with the external and internal changes in our environment, society and organisation. The newly revised 10-year Long Term Financial Plan and four-year Annual Plan were adopted by Council on 20 June 2016.

Establishing an effective budget for the coming financial year is one of the important processes for every organisation, especially for local governments. This is particularly true for Tasmanian councils in the face of cutbacks in funding from the State and Commonwealth Governments and issues surrounding the payment of dividends by TasWater. These factors certainly made the preparation of the 2016-17 budget extremely challenging. However, Council achieved its goal in setting a budget following on

from a very successful public forum that provided an opportunity for community input in this important process. This was a rewarding process and enabled Council to develop a responsible budget that took account of the community's needs and expectations.

An organisation cannot succeed without dedicated, hard working, and experienced staff. Glenorchy City Council is fortunate in this regard and it is the duty of the Council as an employer to look after the safety, wellbeing and entitlements of its staff. As part of its developing Human Resources Strategy, Council commenced a review of its Enterprise Agreement. Following a successful process which included extensive consultation and collaboration with the Australian Services Union, as well as employee bargaining representatives, Council achieved an outstanding industrial result with the new Enterprise Agreement receiving overwhelming support from Council's staff.

Safety continues to be the priority at Glenorchy. As part of its developing Work Health and Safety Strategy, Council conducted a number of Envisage workshops attended by more than 80 employees covering issues such as identity, financial planning and superannuation, employment options for matureage workers, health, relationships, and retirement options and opportunities. This innovative program developed by Council and its consultants Segeco, is now an ongoing component of Council's human resources strategy. It received support and approval from the Commonwealth Department of Employment and has since been rolled out to other organisations.

A key component of Council's SafetyCircle program which operates throughout the organisation is Council's continued focus on creating a positive work health and safety environment and enhanced culture in the workplace. This has already resulted in positive changes with Council recording no lost time injuries for a record number of months. This represents a significant and historic improvement.

As part of the development of our Governance Strategy, Council successfully conducted a number of workshops with Aldermen to develop its Corporate Risk Register. This was adopted by Council on 25 January 2016. In consultation with Aldermen, the community also witnessed a significant development in the review of the Council's policies and procedures. As part of good governance and open communication and transparency, Council began making audio recordings of all of its open Council meetings. The recordings are available to the public on Council's website immediately following each Council meeting.

Council continues to be an innovative organisation and is applying modern 21st century technology in the development of its Information Communication Technology Strategy. Council is currently working with a local Glenorchy company to move its information and communications systems into the cloud environment. Council is recognised as a leader among Tasmanian councils in this area.

I am pleased to report that despite the external challenges faced by Council, its employees and the community in the past financial year, including the establishment

of the Board of Inquiry, changes to the Local Government Act, the Building Act and Glenorchy's Interim Planning Scheme, as well as the issues surrounding the payment of Taswater dividends, Council's management, employees and operations achieved very successful outcomes for the City.

In closing, I would like to thank each and all of the Council's employees for their hard work, commitment, dedication and passion for our community in achieving this successful outcome in this challenging but rewarding year. I would like to record my thanks to our elected members, the Mayor, the Deputy Mayor and the Aldermen, for their continued efforts and passion for our community and City of Glenorchy.

On behalf of our staff, I would also like to extend my thanks to our community for the support, patience and positive feedback you provided as part of the Community Forum associated with the development of the 2016-17 budget as well as the overall positive comments conveyed during the year.

I am confident that with the strong Community Plan, Asset Management Plan, 10-year Long Term Financial Plan, our good governance structure, Corporate Risk Register, Waste Management Strategy and skilled, experienced and highly driven management team and employees, the Glenorchy City Council will continue to serve our community and the City of Glenorchy and will continue to promote a positive culture in our organisation and in all that we do for many years to come.

Peter Brooks General Manager

Aldermen

Alderman Kristie Johnston (Mayor)

First elected 2011 2014 **Elected Mayor**

Council Representations as at 30 June 2016

- Glenorchy Planning Authority (Chair)

Organisational Structure

Council's management team is comprised of the General Manager, three Directors and ten Managers. The General Manager, with the assistance of the management team, is responsible for implementation of the strategies, policies, plans, projects, programs and decisions of the elected Aldermen and the day to day management of the Council.

Part 2 Council's Performance

Council's Strategic Framework

The Glenorchy City Council Interim Strategic Plan 2013-18 was adopted by Council in April 2013. The Strategic Plan sets the framework which determines the actions that Council takes towards achieving its vision of being the best place in Tasmania to live, work and play, both now and into the future. Its pillars are the following four intents, which shape Council's future direction:

- 1. Making lives better
- 2. Open for business
- 3. Valuing our environment
- 4. Leading our community

Underpinning each intent are a number of objectives, against which strategies are identified setting out how Council intends to achieve them. Council's Annual Plan 2015-16 to 2018-19 identifies 123 actions that Council will take to deliver outcomes in respect of each strategy.

This section of Council's Annual Report provides a summary of Council's Annual Plan, demonstrates Council's performance against the goals and objectives that it set itself for the 2015-16 financial year, and reports on the key outcomes that have been achieved for each strategy.

Making Lives Better – As a Council, we exist to make a positive difference in the lives of the people in our community

OBJECTIVE 1.1

Building understanding and engagement of the issues, needs and expectations of communities

Strategy

1.1.1 Identify and profile the Glenorchy community

Continue implementation of Council's Positive Ageing Strategy

Key outcomes

Council continues to implement its Positive Ageing Strategy, which aims to ensure that older residents of Glenorchy are actively engaged in community life. During the course of the year, Council ran Seniors Week events at the Moonah Arts Centre and held Positive Ageing Talks at the Glenorchy Golden Years Club and Aveo Derwent Waters retirement community in Claremont. A review of the current plan will commence early in the new financial year.

Strategy

1.1.3 Improve community consultation and participation processes

Actions

Utilise the community engagement process implemented for the new Community Plan to review Council's community engagement process including the operation of Precinct Committees and new methods such as social media. Review Council's community engagement strategy and develop a community engagement manual

Utilise the Glenorchy Matters Community Panel as a mechanism for representative community input to inform Council decisions

Key outcomes

Following the adoption of the City of Glenorchy Community Plan 2015-2040 in January 2015, Council has continued to review its strategies to determine how it can most productively engage with community. Council has developed a project plan for the development of a community engagement manual and aims to implement it in the second half of 2016. Council is also developing a draft Community Engagement Framework.

Complete Ongoing **OBJECTIVE 1.2** Support our different communities to enable them to pursue opportunities 1.2.1 Facilitate and enable the delivery of accessible information so our communities can pursue opportunities Actions Redevelop Council's website Key outcomes 2015-16 has seen exciting progress on the redevelopment of Council's website, with a project manager appointed and consultants to engage to assist with content development. Once active, the new website will be an invaluable tool for residents of Glenorchy and the wider community to engage with Council and access a range of Council services and information in a user-friendly format. The project remains on track for completion in mid-2017. Strategy 1.2.2 Facilitate the delivery of services that build community capacities and capabilities Develop and implement a whole of community response to building a learning community in Glenorchy Continue to support the operation of the Glenorchy Arts and Culture Advisory Committee Plan, promote and present an annual program of exhibitions, workshops, concerts and events at the Moonah Arts Centre (MAC) in accordance with the MAC Business Plan Implement the Children and Families Strategy Continue to consult and engage with young people and other specific population groups through mechanisms including the Young Women's Multicultural Group, the Glenorchy Youth Task Force, Cultural Diversity Advisory Committee and the Access Advisory Committee Promote volunteerism through mechanisms such as the Annual Volunteer Awards Implement the Healthy Communities Plan Implement the Lawn Bowls Facilities Plan Operate Council's Child Care Centres in accordance with the Education and Care Services National Law and Regulations **Key outcomes**

During 2016, the Glenorchy LEARN committee was re-formed and has been holding bi-monthly meetings. It is currently reviewing the environmental changes since it last convened in 2014. LEARN has supported the establishment and is a partner of the State funded Glenorchy Work Readiness Project with the Tasmanian Chamber of Commerce and Industry.

The Moonah Arts Centre, opened in March 2015, continues to be a resounding success with almost 53,000 visitors in the first 15 months of its operation. The 2016 annual program of events has commenced and is being actively promoted. The Centre is a significant cultural hub and has grown into a facility in which the Glenorchy community can take great pride.

The Glenorchy Arts and Culture Advisory Committee (GACAC) continues to meet every second month and provided expert input into the selection process for the 2016 exhibition and performance program at the Moonah Arts Centre. GACAC was also actively involved in the Arts Heroes of Glenorchy project and works actively to develop new and exciting arts projects.

Key outcomes cont.

Council's Family Violence Working Group was established in February 2016 in partnership with a number of community based organisations. The working group aims to directly promote awareness of family violence and support the introduction of bystander training across the community.

A Children's Art exhibition and awards ceremony for local residents supporting children's health and well being and learning was held at the Moonah Arts Centre.

The annual "Hear Our Voices Multicultural Womens' Gathering" forum was held at the Hopkins Street Centre in March. The forum provided a safe space for women to raise issues including those relating to family violence, sexual and reproductive health and other settlement issues.

The 23rd annual Glenorchy Volunteer Awards was held in May 2016, with over 80 volunteers and two volunteer groups recognised. Council has also continued to support the Glenorchy Community Volunteer Program which operates out of the Glenorchy Volunteer Centre at Berriedale.

Implementation of Council's Healthy Communities Plan is underway with State government funding secured and an action plan for a rollout of actions over the coming years developed. Council has received funding from the Local Government Association of Tasmania to engage a consultant to identify gaps in the plan and how to address them and has also established a Health and Wellbeing Network. Council continues to support the 'Glenorchy on the Go' programs, including Ambassadors and healthy eating and lifestyle sessions and programs which encourage and support healthy lifestyle changes. Council continues to facilitate the Sport and Recreation Advisory Committee and the Tracks, Trails and Cycleways special committees.

Council continues to hold meetings and negotiations with stakeholders to establish new regional lawn bowls centre at the Glenorchy Bowls Centre, Berriedale (a conceptual design is currently being developed) and also continues to develop sports ground and playground strategies for the municipality.

The Berriedale and Benjafield Child Care Centres continue to operate in compliance with the national quality Standard for Early Childhood Education and Care. Both centres have a 'Meeting' rating in all quality areas and an 'Exceeding' rating in Quality Area 5 (Relationships with Children). Berriedale also has an 'Exceeding' rating in Quality Area 2 (Children's Health and Safety). The organisational structure of the centres was recently reviewed and a new structure implemented. Council is also reviewing and updating all of its Child Care Connections Policies and Quality Improvement Plans with substantial progress made.

Strategy 1.2.3 Identify and facilitate linkages with Council and other service providers to create opportun for our communities	Ongoing
Actions In consultation with the Glenorchy Arts and Culture Advisory Committee and the community, plan, develop and implement a range of arts and cultural events, activities and projects including the Symphony under the Stars and Carols by Candlelight	
Foster and support community cultural events and projects which celebrate Glenorchy's cultural diversity and build identity, inclusion and City pride, including the Moonah Taste of the World Festival	
Deliver the externally funded KGV Sports and Community Precinct Project	
Deliver the externally-funded Goodwood Community Centre upgrade	
Implement Council's Youth Strategy	
Partner with other stakeholders to support initiatives which address social disadvantage such as problem gambling, mental health and alcohol and other drugs	
Continue to convene inter-agency groups to address gaps in services including Youth Action Network Glenorchy (YANG), Glenorchy Action Interagency Network (GAIN) and Linkages	
Implement the Council's Community Safety Framework and Action Plan	

Key outcomes

The Glenorchy Carols by Candlelight Committee delivered another hugely successful Carols By Candlelight in December with a large number in attendance. In February, the Symphony Under the Stars returned to Tolosa Park (having been cancelled due to bad weather in 2015) and was also a great success with over 6,000 people being treated to an outstanding performance by soprano Amelia Farrugia, supported by the Tasmanian Symphony Orchestra.

The annual Moonah Taste of the World Festival was held in March at Benjafield Park with a crowd of approximately 8,500 enjoying a celebration of food, culture and entertainment. The festival featured 30 food stalls, 20 activity providers and over 150 performers on two stages.

2015-16 saw substantial progress towards completion of the KGV Sports and Community precinct with the first of the tenants (the Glenorchy District Football Club) moving-in in June. Once complete, KGV will be a state of the art regional sports facility. It has been delivered in partnership with State and Federal governments, with final completion expected in October 2016.

The upgrade of the Goodwood Community Centre was completed in June 2016. Funded by the State Government with Council delivering project support and in-kind services, the upgrade delivered a new extension to the centre including a multi-use room, kitchenette, office, store room and bathroom.

A number of initiatives were undertaken under Council's Youth Strategy and all key milestones in its implementation plan were met. Activities undertaken included the annual "Gig in the Gardens" event in December, the "Happyness Cycle" event in November 2015 (one of only 9 in Australia) and the "Make Your Mark" project working with local High School students and artists to promote discussion around death and dying (in partnership with the Tasmanian Museum and Art Gallery and the Moonah Arts Centre). Council staff delivered a youth leadership program with multicultural male students at New Town High School and held a number of drug and alcohol awareness sessions for parents of young people aged 12 to 20. In December, Council won the Keep Australia Beautiful national "Young Legends Award" for work done by the Glenorchy Youth Task Force, Berriedale and Benjafield Child Care Centres and students of Rosetta Primary School.

Council continued its work with the Suicide Prevention Network, and now partners with the Phoenix Centre (through the Migrant Resource Centre Southern Tasmania) which has taken over coordination of the network. Council also undertook a number of other initiatives including participation in R U OK? Day and Mental Health Week and held a Children and Families information evening and expo at the Royal Hobart Show.

Council's Youth Action Network Glenorchy (YANG) continued to meet every two months. YANG provides a sector-wide approach to local youth issues and has delivered a range of activities for young people in Glenorchy during the year, including holding monthly barbecues.

The Glenorchy Action Interagency Network (GAIN) also continued to meet every two months and collaborated to seek grants to address literacy, parenting and family violence.

Council's Community Safety Program delivered successful initiatives including liaising with Metro Tasmania and Tasmania Police to address antisocial behaviour in the Glenorchy Bus Mall and participation in a crossgovernment project to attract funding for and deliver a driving simulator course to young people in five surrounding municipalities. Council also participated in Dad's Day Out and White Ribbon Day events, and continued to convene the Safer Communities special committee.

OBJECTIVE 1.3	Complete	Ongoing
Lead the provision of value for money services		····
Strategy 1.3.1 Identify the service expectations of our different communities and response	ond appropriately	,
Actions Maintain, renew and replace Council's infrastructure in accordance with Council's management framework	s asset	
Develop a whole of Council Customer Experience		
Review current infrastructure service levels		
Undertake an Operational Service Level Review		

Key outcomes

A project working group has been formed to deliver Council's whole of Council customer experience and Customer Experience Strategy, and is currently developing documentation for testing with Council business groups and planning for community focus groups. The project is well underway and is on target for completion during the next financial year.

Council has completed a review and update of its Infrastructure Maintenance Service Level Manuals and continues to deliver the agreed services levels for each asset class.

Council's Operational Service Level Review continued during the year with a strategic service level review of internal departments currently being undertaken. The review will continue through to 2017-18.

Information on Council's capital works program can be found under objective 3.1 (below).

Strategy

Complete Ongoing

1.3.2 Identify and explore new income streams to maximise value for money

Identify opportunities for outsourcing services that will create value for money and meet the expectations of the community

Key outcomes

Council has continued to explore opportunities for outsourcing, with some additional opportunities utilised. Additional opportunities will be identified as part of the service level reviews currently being undertaken.

Strategy

1.3.3 Advocate for, partner with, or deliver services that address identified levels of community need

Provide an effective animal management service

Administer kerbside waste collection services, promote waste minimisation, recycling and environmentally responsible disposal options

Key outcomes

During the 2015-16 financial year, a total of 9,294 dogs were registered and 1,797 customer concerns were recorded of which 953 were responses to field requests (including notifications of stray dogs). 388 infringement notices were issued and 335 animals were impounded.

The Jackson Street Waste Management Centre received a total of 160,131 tonnes of waste over the year (an increase of over 3%). 120,034 tonnes of that was diverted from landfill through recovery or reuse, including concrete crushing for re-use as road base and green waste mulched for compost. 7,961 tonnes of waste was taken through kerbside collection and sent to landfill and a further 89 tonnes collected from public litter bins. 3,325 tonnes of recyclable material was also taken through kerbside collection and sent to the recycling facility.

Council gave 76 waste education presentations at 18 local schools, reaching almost 2,000 students and will continue to expand its education program top more schools, community and business groups in conjunction with staff from other areas of Council.

Open for Business – A vibrant economy is important for the jobs and wealth it brings to our community. We need to strengthen the perception of Council as encouraging development

OBJECTIVE 2.1	Complete	Ongoing
Encourage a sustainable, dynamic and prosperous economy		
Strategy 2.1.1 Profile the existing economy and the emerging growth sectors		
Actions Develop an economic development strategy for Glenorchy		
Key outcomes Project planning has started for the development of Glenorchy's economic develo	pment strategy.	
Strategy 2.1.2 Develop relationships that support key stakeholders to pursue growth	opportunities	
Actions Progress the Interim Planning Scheme to a single State-wide Planning Scheme		
Advocate, lobby or represent the interests of business with State or Federal agenc organisations and groups	ies,	
Implement the Wilkinson's Point and Elwick Bay Precinct Master Plan		
Key outcomes The Wilkinson's Point and Elwick Bay Steering Committee is continuing to progress develop this significant site which will have long-term benefits for the Glenorchy commissioned a Development Feasibility Study which was finalised in early-2016. To fa report on future development options to be presented to Council in the new forms.	ommunity. The C This study will for	ommittee
Council continued its preliminary preparations for the transition to the new State-v is due to be adopted during the coming year. Those preparations included the subcomprehensive 50 page response to the Tasmanian Planning Commission's draft S	omission by Cou	ncil of a
Strategy 2.1.3 Communicate and market our economic growth opportunities		
Actions Develop and implement the business and marketing strategy for the Derwent Entertainment Centre		
Actively promote events held at the Derwent Entertainment Centre and other city	facilities	
Key outcomes A Strategic Business Plan was finalised in January 2016 and the Derwent Entertainn Council staff are actively working to implement it. The key goals of the strategy are live entertainment events, improve patron experience, develop a DEC function council.	e to increase the	number of

live entertainment events, improve patron experience, develop a DEC function centre, develop a future capital maintenance and business model plan, major sponsorships and partnerships, and community engagement.

OBJECTIVE 2.2

Ongoing Complete

Support Priority growth sectors

Strategy

2.2.1 Create a framework to support and encourage opportunities in priority growth sectors

Actions

Partner with Destination Southern Tasmania to increase local tourism visitation

Key outcomes

Council continued its productive relationship with Destination Southern Tasmania. Staff have participated in the development of a Destination Access Plan for Greater Hobart and Council has contributed financially to the development of a new Southern Visitor Map which is currently under production.

Strategy

2.2.2 Ensure that internal processes enable coordinated priority approvals

Actions

Develop a Property Strategy

Implement the Property Strategy

Key outcomes

Council has completed the preliminary steps in the development of a Property Strategy including the development of a property register. The scope of work for a consultant to undertake development of the strategy is currently being reviewed. Action lists for the implementation of the strategy will be prepared during its development with implementation to occur after its adoption.

Valuing Our Environment – Our environment underpins our way of life in Glenorchy. Council has a responsibility to manage the environment for future generations

Complete **OBJECTIVE 3.1** Create liveable built environments and sustainably manage our natural and built environment 3.1.1 Set priorities for management of our natural and built environments in partnership with our communities **Actions** Develop a nature strip management plan Implement the nature strip management plan Develop a street tree urban master plan Implement the Environment Strategy (2013-2023) Implement the Open Space Strategy **Key outcomes** The development of Council's Street Tree Urban Master Plan (in the form of new Tree Management Guidelines) and Policy have been completed and were adopted by Council in May 2016. A Draft of Council's Nature Strip Management Plan will be finalised and presented to Council for consideration during the 2016-17 financial year. The implementation of Council's Environment Strategy is being rolled out incrementally as relevant Council Projects are progressed. The implementation of Council's Open Space Strategy will continue following a review of internal Council policies (which is currently underway) which impact on its operation. Strategy 3.1.2 Deliver services that sustainably manage our natural environments Actions Protect the City's natural values through planning processes, enforcement, on-ground activities and community NRM support Participate in the Derwent Estuary Program Monitor recreational water quality Key outcomes Ongoing water quality monitoring was undertaken at Windermere Beach and Elwick Bay during the recreational season (December to March). 18 samples were taken at Windermere Beach of which 17 were within accepted tolerances. At Elwick Bay, 17 samples were taken with none of those outside tolerances. Monitoring also continued at Faulkner's Rivulet and three additional sites in the Elwick Bay and Berriedale Bay vicinity with varied results. Council staff attended all meetings of the Recreational Water Taskforce as part of the Derwent Estuary Monitoring Program, and, through that program, provided a number of recommendations for amendments the Southern Interim Planning Scheme in relation to its drainage and environmental matters. Council was also

actively involved in preparing a series of draft Codes for inclusion in the new State-wide Planning Scheme

reform through its consultation process.

Key outcomes cont.

Council's Environment section continues to actively work to protect the natural values in Wellington Park through increased monitoring and engagement with Park Rangers and Police to report illegal activities such as trail bike riding and wood gathering. Council has installed remote cameras in the park to increase its ability to detect illegal activity. Council has also monitored the natural values of Council's reserves and has collected various baseline data on the ecological health of those areas. In the process, Environmental officers have made a number of important discoveries, including the locations of Tasmanian Devils in places they were not previously known to inhabit. A great deal was also learned about the threats to Glenorchy's spectacular reserves including by weed invasion, feral cats and goats, wood-hooking, and illegal motorbike access.

The Environmental section has continued to provided support to mountain biking recreation in Wellington Park through ongoing track maintenance. Additionally, the Environmental section has:

- supported a dedicated GCC Green Army team and applied for a further Green Army team spanning multiple years
- developed a whole-of-council Weed Management Plan
- actively supported the Wellington Park Management Trust in its activities, and
- supported the Wellington Park Bushcare group.

Council has provided support for bush-based volunteering in both the Tolosa Mountain Bike Park and Wellington Park. That support will continue to be offered as a high priority.

Strategy 3.1.3 Deliver services that create sustainable and liveable built environments	Ongoing
Actions	
Manage essential building maintenance compliance for Council properties	
Review Council's Disability Discrimination Act Action Plan	
Implement Council's Disability Discrimination Act Action Plan	
Identify business and funding opportunities for the further development of the Glenorchy Arts and Sculpture Park (GASP!) including art development	
Ensure the construction and maintenance of safe and healthy buildings through compliance with building and plumbing codes	
Plan for the sustainable development of the City, ensuring compliance with the planning scheme and community involvement in the planning process	
Implement actions from the Greater Hobart Regional Bicycling Plan	
Manage the City's transport network to promote sustainability, accessibility, choice, safety and amenity	
Protect the City's heritage through planning scheme listing and assessment processes	
Implement the revised management plan for the Rosetta and Casuarina Crescent Landslip A Zones	
Promote, implement and monitor public health standards	
Develop a Master Plan for Tolosa Park	
Continue to implement the Council's Graffiti Action Plan	
Deliver the capital works program for roads, stormwater and Council property, parks and reserves	
Develop a Master Plan for the Berriedale Peninsula	
Upgrade parks and reserve signage across the city	
Develop the Glenorchy CBD Strategic Framework	
Implement the Glenorchy CBD Strategic Framework	
Implement the externally funded Streetscape Improvement Project	
Implement the Waste Management Strategy	
Implement the Heritage Information Update Project	

Following extensive consultation with community organisations and other stakeholders, the Glenorchy City Council Access Action Plan 2016-2021 will be adopted by Council in August 2016. The Access Action Plan will allow Council to work collaboratively with others in our community to improve the experiences for people with a disability, and make Glenorchy the best place in Tasmania for people with disability to live, work and play.

Council has worked with the new GASP! Committee to identify further opportunities for the development of the Glenorchy Arts and Sculpture Park. A new GASP! CEO was also appointed and will commence work in July 2016.

Council issued 309 building permits with an average time of 4.18 days. 281 plumbing permits were issued for the same period averaging 5.46 days. The majority of applications were processed within statutory time frames and processes are being reviewed to ensure 100% compliance in the future.

252 planning applications were received by Council during the financial year and 100% compliance in processing these within statutory time frames was achieved.

Council continues to carry out an ongoing maintenance program for all Council properties through its Facilities Maintenance section.

Implementation of a number of actions arising from the Greater Hobart Regional Bicycling Plan were achieved, including the construction of on-road bike lanes at from Main Road, Claremont to Austin's Ferry and signage upgrades and removal of chicane barriers on the Intercity Shared Pathway. Council will continue to work with Cycling South and other cycling bodies and committees to deliver further initiatives to improve safety and accessibility for cyclists in Glenorchy.

Federal funding was secured for two significant Black Spot projects: The Berriedale Rd and Brooker Highway ramps and roundabout (\$730,000), and the Main Road and Marys Hope Road traffic signals (\$250,000). Those grants represent an unprecedented level of funding to Glenorchy under the Black Spot program and will result in significant safety improvements in those areas.

Council's Environmental Health team was successful in achieving 100% registration and licensing for food businesses, public health risk premises and operators, regulated systems, and places of assembly.

Development of the Master Plan for the Berriedale Peninsula continues with consultancy firm Inspiring Place engaged to amend the existing plan. Once complete, the Master Plan will encompass the Berriedale Indoor Bowls Centre and the relocation of the current bike park at Berriedale to the Cycling Hub being developed in Tolosa Park. A new Tolosa Park Master Plan is being prepared in consultation with Inspiring Place and will proceed following the completion of negotiations with TasWater regarding the rehabilitation of the Tolosa Park Dam.

Council has made significant progress in its exciting Glenorchy CBD Revitalisation project with Inspiring Place again being engaged to undertake development of streetscape concept designs for Main Road, Glenorchy between Peltro Street and Humphreys Rivulet. Draft concept designs are being prepared and will be presented to Council at a workshop in July 2016. The CBD Revitalisation Project is the first implemented from the award winning Glenorchy CBD Strategic Framework, developed in 2014. Council has identified its preferred concept to be implemented through the Streetscape Improvement Project, a children's playground and café in the Council forecourt. Additionally, Council's ongoing Graffiti Action Plan has successfully dedicated resources to remove graffiti from the City's assets as soon as possible after it appears. Council was recently presented with an updated Graffiti Management Plan and adopted a new Graffiti Management Policy.

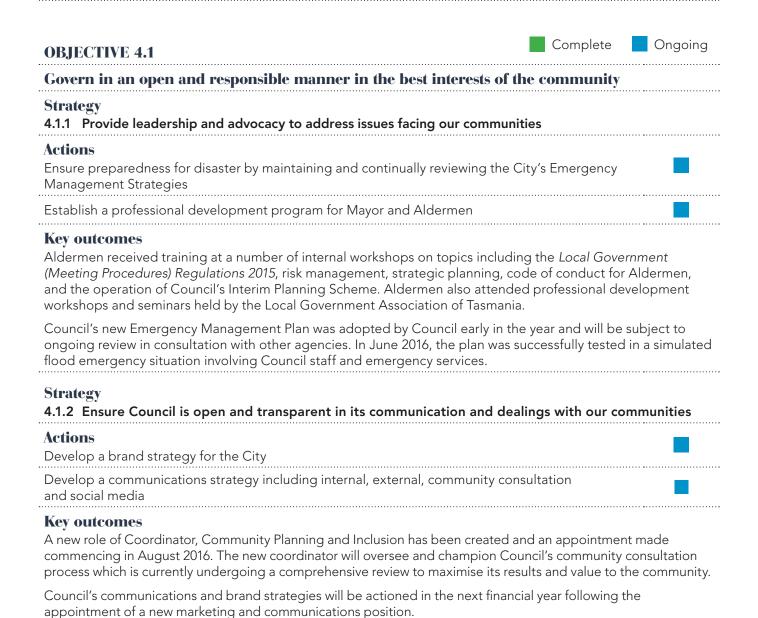

Road Maintenance continues to be delivered to current adopted service levels, and major road renewal works to improve the road network were completed in Tolosa Street, Sinclair Avenue, Wattle Avenue, Athol Street, Gepp Parade, Maroni Road, Fluer Street and Bowen Road. A Street Sign replacement project was commenced, and Stormwater systems were upgraded at Arnold Street, Upper Hilton Road and O'Grady Avenue.

Implementation of Council's Waste Management Strategy continued, with key actions undertaken including:

- the continuing upgrade of all kerbside recycling bins to 240 litres (with additional funds recently dedicated under capital works budget)
- the upgrading of public litter bins on Main Rd, parks, reserves and various other locations
- the completion of a kerbside bin audit, with a further audit of waste and recycling bins in conjunction with collection contractor to be carried during by early 2017
- continued rehabilitation of Council's landfill sites in accordance with the Council's landfill closure plan and directives from the EPA, and
- maintained the effectiveness of ground water and leachate monitoring systems at Landfill and continued to conduct quarterly monitoring of water and leachate.

Glenorchy's heritage listed places continue to be protected through referrals in accordance with the Historic Heritage Code in the Glenorchy Interim Planning Scheme 2015. Council's data sheets for heritage listed properties have now been fully updated and a draft engagement strategy on the new information is currently being prepared.

Leading our Community - The community looks to Council to advocate for its needs and lead it into a preferred future. Prudent governance of Council and the community's assets is an integral part of this

Complete Ongoing
Strategy
4.1.3 Use corporate planning processes to identify and determine clear priorities for action
Actions Convolinate development and are duction of Council's Annual Plan
Coordinate development and production of Council's Annual Plan
Implement the performance reporting system for corporate strategic planning
Develop a 10 year Strategic Plan
Develop and implement a performance management framework (KPI's) for each department and individual employee(s) linked to achievement of Council Annual Plans and Strategic action plans
Develop an Innovation Strategy
Key outcomes
A new Strategic Planning Framework was endorsed by Council in September 2015 based on Council's City of Glenorchy Community Plan 2015-2040. Council has prepared a draft Strategic Plan 2016-2025 and management team workshops have been held to refine the strategies and performance measures ahead of presentation to Aldermen and community consultation. Council's Annual Plan 2016-17 to 2019-20 was developed and adopted by Council on 20 June 2016.
Council's Affindar Flam 2010-17 to 2019-20 was developed and adopted by Council on 20 June 2016.
OBJECTIVE 4.2
Manage our resources to achieve community outcomes
Strategy 4.2.1 Deploy the Council's resources in a way that maximises the effectiveness of the organisation and delivers value for money
Actions
Implement the 10 year maintenance and capital plan for the DEC
Implement information and communications technology (ICT) strategy
Implement the public toilet facilities plan
Implement the Improvement Plan including efficiency, savings program, resource utilisation improvements and end of year performance review of key service streams
Review and update the corporate risk management plan
Undertake a Community Facility Utilisation Review of maintenance, user and lease requirements
Implement Asset Management Strategy
Identify commercial revenue raising opportunities from Council facilities and property portfolio
Deliver the maintenance program for Council in accordance with agreed service levels
Review grant management processes
Develop an Accommodation Strategy
Implement the Accommodation Strategy
Prepare Management Team Protocols, Roles and Responsibilities
Develop a GCC Project Management Methodology
Review and improve the processes and systems for the preparation of documents and agendas for Council meetings and Workshops and develop templates

Actions cont.	Complete	Ongoing
Develop a Procurement Strategy, including contract management review		
Undertake a Plant and Fleet Review		
Implement the Plant and Fleet Review		

Key outcomes

2016 saw the practical completion of Glenorchy's ground-breaking Derwent Park Stormwater Harvesting and Industrial Re-use Project. The project's objective was to build infrastructure to harvest and treat a minimum of 476 megalitres (ML) of stormwater from the urban catchment or Derwent Park per year for flood mitigation, and industrial and irrigation reuse. Jointly funded by Council and the Australian Government, construction commenced in May 2011 and was completed on 30 April 2016. The completed project has achieved its principal objective of harvesting 1.5 ML of stormwater per day. In late 2015, the project was recognised at the Keep Australia Beautiful National Sustainable Cities Awards held in Brisbane, receiving a Highly Commended in the Environmental Sustainability category.

Progress has been made on the major Information and Communications Technology projects which will take Council's computer systems into the cloud environment and allow improved mobility and refined business processes. Completion of the projects has been pushed back to actively manage a range of project risks, with completion now targeted for mid-2017.

Council adopted a Strategic and Key Operational Risks Register in January 2016. Council's Corporate Risk Management Plan will be developed during the new financial year along with the development of new policies and procedures.

The Community Facility Utilisation Review of maintenance, user and lease requirements commenced during the financial year. An assessment of all licensed, miscellaneous hire and use arrangements for Council property and land will be undertaken and standard procedures will be developed to enable Staff to easily manage hire and licensing arrangements and improve customer service. Further opportunities for Council to raise commercial revenue from the use of community facilities will be identified as part of that review and the implementation of actions resulting from it.

Council's Asset Management Strategy for Infrastructure Assets 2014-15 to 2017-18 was adopted in June 2014. In-line with the strategy, Council has developed a 10-year capital plans for its transport, drainage and building assets. Council's 2016-17 budget was developed on the basis of those long term plans.

The development of a 10 year Asset Management Plans for Roads, Drainage, and Buildings and Other Infrastructure (required under legislation) is now complete. The plans provide details of the renewal projects will carried out in future years and are driven by condition assessment data. Outcomes of the development of the Asset Management Plans are:

- Roads: Council has gathered significant condition data with the information used to produce Council's 2016-17 capital works program and asset management strategies for future years.
- Drainage: Council has recently adopted sophisticated capacity modelling software which provides details of the service requirements for drainage assets for years 1 to 10 and beyond. A detailed asset analysis has looked at a number of factors including risk, capacity, age, maintenance, and renewal and future impacts. This has provided a clear direction for stormwater assets, which Council has not previously had.
- Buildings and Other Infrastructure: Council's Asset and Property teams have worked to compile a list of priority works (both new and renewal). Consultants were engaged to compile a strategic approach to completing this task using Council's available data.

The Asset Management Plans were presented to a Council Worksop on the 21 March 2016 which also detailed the capital works budget formulation. These plans are now informing the Long Term Financial Plan of the capital funding required and depreciation levels.

Grant management processes will now be overseen by a new Grants Management Committee which has been established with terms of reference and will report back to management. The committee will review, assess and maintain a register of potential projects, grant application submissions and successful applications.

Council has commenced development of its Accommodation Strategy which will determine how and where Council accommodates its operations in the future. Consultants have been engaged and consultation and development of the strategy has commenced, with a report to Council expected to be presented in December 2016.

Key outcomes cont.

Following the internal restructure of Council during 2015 and 2016 a new management team is now in place. New management protocols, roles and responsibilities are set out in new management position descriptions and employment contracts, and professional development will occur in the second half of 2016-17.

A review of Council meeting planning and work flow was endorsed by the General Manager with the aim of streamlining processes through improvement to agenda and reporting templates, managed through software improvements. A new internal compliance role has been created (and an appointment made) which will further develop and streamline these procedures. Council also adopted a revised meeting procedures policy in October 2015.

2015-16 saw progress on Council's Procurement Strategy project which will update and overhaul Council's procurement processes. In April 2016, Council adopted a new Code for Tenders and Contracts which sets out the procedure for Council's purchasing, contracting and tendering activities. Council's Strategic Procurement Coordinator is in the process of developing a suite of new standard form documents that will form the basis of Council's overall procurement process and provide greater clarity and ease of process for both Council and its suppliers into the future.

Council's plant and fleet reviews have been undertaken and are now complete. Implementation of the findings of the review is occurring progressively as replacement dates fall due.

Complete Strategy 4.2.2 Ensure long-term financial capacity to deliver required services Actions Prepare a Financial Processes Improvement Plan

Key outcomes

Council updated its 2016-17 Budget and Long Term Financial Plan (LTFP), which spans the period from June 2016-17 to 2025-26. The LTFP forecasts a budget surplus in the 2016-17 budget with the budget remaining in increasing surplus through to the end of the forecast period. A number of initiatives to improve financial processes are being developed, however their implementation has been delayed by the extension of the date for completion of Council's major ICT projects, which will form the platform for them.

Strategy

4.2.3 Ensure we have an appropriately skilled and capable workforce and a safe workplace

11 1 7 1	.
Actions Develop a Human Resources Strategy	
Develop a Well Workforce Plan	
Negotiate a new enterprise agreement and implement the Modern Award	
Develop a Work Health and Safety Plan and Strategy	
Complete Business Continuity Plans	
Deliver a Management Training and Development Program	

Key outcomes

Council is focussed on the people who support its operation. As a major employer in the municipality and the provider of important services to the local community, Council is critical to the ongoing service needs, economic development and prosperity of the region. Council's Human Resources Strategy, which is currently under development, will be driven by its core principles to ensure Council's ongoing sustainability and to support and develop Council's people who actively serve the Glenorchy community.

Key outcomes cont.

The Human Resources Strategy will achieve the following outcomes:

- improved workforce planning capacity and its priority within Council
- skill and experience gaps and succession planning
- mature age employee retention, the cross transfer of valuable information and mentoring
- the development of new entrants to local government employment, and
- increased productivity, resourcing and people management across the organisation.

Activities carried out in the development of the Human Resources Strategy in 2015-16 included completing a workforce data survey which gave insight into the profile of the workforce and highlighted potential ageing workforce risks and issues; and holding seminars for employees between August and October 2015 which were a powerful and engaging way to support our employees in planning for their future.

Development of Council's new Work Health and Safety Plan and Strategy also progressed during the financial year. Council achieved 6 consecutive months with no Lost Time Injuries (LTI's) for the first time in its history. This reflects Council's renewed a new focus on workplace safety and is a significant achievement. Consultation will continue for both the Work Health and Safety Plan and Strategy and the Human Resources Strategy through the 2016-17 financial year.

In June 2016, agreement in-principle was reached on the terms of Council's new Enterprise Agreement, the Glenorchy City Council Enterprise Agreement 2016 (GCCEA). The GCCEA was negotiated extensively during the year with staff being represented by employee representatives and the Australian Services Union (ASU). The final GCEAA contains an improved package of employment terms and conditions, and was recommended to staff by both Council management and the ASU. In addition to providing annual salary increases for employees and locking in existing entitlements, the new four-year agreement includes leave provision for any employees impacted by family and domestic violence. Council hopes this will set a positive example to other organisations within Glenorchy and beyond to consider, discuss and commit to this important issue in our community. The GCCEA will be implemented in the new financial year, subject to certification from the Fair Work Commission.

Strategy

4.2.4 Maintain fair systems and processes that result in high levels of regulatory compliance in Council and the community

Actions

Ensure community compliance with State legislative requirements on matters of material importance

Develop a Governance Strategy

Key outcomes

Council's public compliance section (parking and animal management) continues its enforcement activities in accordance with State legislation and Council by-laws. An Urban Fire Abatement program was completed for the 2015-16 summer bushfire season.

Significant resources have also been invested in ensuring compliance with planning, building and public health legislation. These have resulted in a number of successful prosecutions and the resolution of many community concerns.

Extensive work has been undertaken to review Council's internal policies, with 52 policies either updated or adopted by June 2016 and 30 outdated or unnecessary policies being rescinded. Council intends to complete its review of all policies by the end of 2016. A significant amount of work has been undertaken to develop a new Roads By-Law and which will provide for Council to regulate various activities on roads in its area including the operation of food trucks and roadside dining. Council intends to have a draft Roads By-Law out for public consultation in early 2017. Council has also undertaken an extensive review of its Environmental Health Services By-law, with a draft to be released for public comment in October 2016.

OBJECTIVE 4.3

Complete

Foster relationships to deliver community outcomes

4.3.1 Develop and manage collaborative relationships with other levels of Government

Actions

Liaise with the State Government as appropriate on matters of strategic priority

Participate in the review of the role and functions of local government

Continue to contribute to the local government reform process in accordance with Council's guiding principles

Council works actively with all levels of government to progress issues facing the City and other municipalities and initiatives that bring economic benefits to the community. Council continues to participate in the local government reform process through engagement with other local governments and the State. Consultants have been appointed (partially funded by the State Government) to model local government reform options for Glenorchy, Hobart and Clarence City Councils and the Kingborough Council. The General Manager is also a member of the Steering Committee for the Implementation of the Strategic Action Plan for Role of Local Government which reports to the Premier's Local Government Council on its progress and has had a number of its recommendations adopted.

Council continued to participate in the State-wide review of the roles and functions of local government with the General Manager attending meetings of the Role of Local Government Strategic Working Party. Council also engaged with other government bodies through:

- the General Manager's appointment to the Premier's Local Government Committee
- attendance by the General Manager and the Mayor at Traffic Congestion forums
- engagement with the Department of State Growth through their attendance at committee meetings and presentations to Council on the Brooker Highway Upgrade Project
- consultation with the Department of Premier and Cabinet regarding Council's reviews of its by-laws
- partnership with the Department of State Growth and Hobart City Council on the Infill Development Pilot Project, and
- participation in a Joint Working Group with Hobart City Council on the potential development opportunities associated with the former rail corridor between Hobart and Glenorchy.

Strategy

4.3.3 Partner with other councils and regional organisations to achieve community outcomes

Actions

Identify and formalise external council relationships to partner and, where feasible, share resources

Actively participate in peak local government bodies (LGAT and the STCA) to advance community priorities

Key outcomes

Council has a memorandum of understanding with the Hobart City Council (HCC) under which the two councils have agreed to work together to share services for the benefit and interests of both communities. Meetings between HCC and Council to investigate options to share services continued throughout the year.

The Hobart and Glenorchy councils have also worked together (through the Glenorchy and Hobart City Council Rail Corridor Working Party which is comprised of Aldermen and the General Managers of both Councils) to examine the potential for urban regeneration, land use and economic development opportunities by capitalising on the use of the public transport corridor between the two cities. The councils have jointly engaged GHD to undertake an investigation and report back.

Meetings continued between Council and seven other Councils (Brighton, Glamorgan Spring Bay, Central Highlands, Huon Valley, Sorell, Southern Midlands and Tasman) under the Common Services Joint Venture Agreement signed in April 2015 which meets each month to identify services that can be shared to provide better value for money and attract and retain skilled employees within Councils.

Council continues to be an active member of the Southern Tasmanian Councils Authority and participates in monthly meetings, as well engaging with Destination Southern Tasmania to identify further opportunities to promote and increase tourism visitation in Glenorchy. Council also participated in regular forums held by the Local Government Association of Tasmania including participation by the General Manager in the General Manager's Forum, participation of the Mayor and Aldermen in Councillor workshops and utilising other professional development opportunities. Council, through the General Manager, is also working actively with other Councils on a targeted review of the current Local Government Act 1993.

Part 3 Legislative Requirements**

*All references are to provisions in the *Local Government Act* 1993, unless otherwise stated.

Public Health Statement

Section 72(1)(ab)

Section 72(1)(ab) of the Local Government Act 1993 requires Council to prepare a statement of its goals and objectives in relation to public health for the preceding financial year. The statement is required to describe the extent to which Council has carried out its functions under the Public Health Act 1997 and the Food Act 2003; to state the resources allocated to public health; to state the extent to which its goals, objectives, policies and programs in relation to public health met the needs of persons within its municipal area; and to include details of the completion of any strategies.

Council's Public and Environmental Health program is administered by the Environmental Health section as part of Council's City Services and Infrastructure Directorate. The program carries out a range of activities to support action 3.1.3.11 in Council's Annual Plan, being to 'Promote, implement and monitor public health standards.'

Council's Environmental Health section is resourced with a Coordinator Environmental Health Services. a Senior Environmental Health Officer, two Environmental Health Officers, a Technical Officer and two contract Nurse Immunisers. The budget expenditure allocation for the Environmental Health section for the 2015-16 financial year was \$619,881 and it generated \$230,133 in income.

The Environmental Health section administers the key pieces of legislation that regulate public health matters in Tasmania, namely the Local Government Act 1993, Public Health Act 1997, Food Act 2003, Litter Act 2007 and Environmental Management and Pollution Control Act 1994 and their associated regulations. The key functions of these Acts include the regulation of matters relating to:

- notifiable diseases (food borne illness)
- immunisation
- places of assembly
- public health risk activities
- unhealthy premises
- public health and environmental nuisances
- disease prevention and control
- public health education and promotion
- water quality monitoring
- food safety
- on-site waste water management
- private burials and exhumations
- cooling towers and warm water systems, and
- pollution (air, liquid and solid).

The following table outlines the statistics for environmental health activities undertaken by Council during the 2015-16 financial year:

Food Act 2003	Number	Inspections
Registered food businesses	371	635
Temporary food business	378	35
Improvement notices	7	7
Prohibition orders	1	1
Infringement notices	9	9
Food samples/Questionnaires	25	25
Public Health Act 1997		
Notifiable disease notifications/investigations	22	22
Gastroenteritis outbreak investigations in vulnerable population settings	0	0
Vaccinations administered at Council immunisation clinics	245	N/A
Vaccinations administered at school immunisation sessions	1,564	N/A
Registered cooling tower and warm water systems	33	N/A
Immunisation record requests	132	N/A
Registered public health risk activity premises (tattooing and ear/body piercing)	9	9
Licenced operators – public health risk activities (tattooing and ear/body piercing)	24	24
Registered water carters	2	2
Licensed special events (Place of Assembly)	10	4
Closure orders (unhealthy housing)	1	5
Water samples (pools, beaches, rivulets etc.)	103	103
Building Act 2000		
Special Plumbing Permits assessed	5	N/A
Food verification assessments (approval of plans for new or alterations to existing food premises)	14	13

Local Government Act 1993/ Environmental Management and Pollution Control Act 1994	Number	Inspections
Public/Environmental Health nuisances investigated	571	312
Development application referrals	78	N/A
Abatement Notices issued	2	10
Environmental Protection Notices issued	3	13
Infringement notices (litter, nuisance etc.)	10	N/A

In pursuance of the Annual Plan objective of promoting, implementing and monitoring public health, the Environmental Health section undertook the following actions and initiatives in 2015-16:

2015–16 Key Actions/Initiatives	Actioned
Improve the uptake of vaccinations	Υ
Undertake sampling of contamination 'hot spots' in Faulkner's Rivulet	Y
Participate in the "Burn Brighter this Winter" project in 2016	Υ
Develop and administer food handler training twice per year.	Υ

Burn Brighter this Winter

In May 2016 the Environmental Health section commenced the implementation of the "Burn Brighter this Winter" project in conjunction with the Environment Protection Authority Division of the Department of Primary Industries, Parks, Water and Environment. The aim of Burn Brighter this Winter is to reduce wood smoke in particular focus areas of Glenorchy by identifying suburbs with significant smoke issues.

The project involved raising awareness and educating the community about the correct way to operate a wood heater to reduce wood smoke emissions. This was achieved by holding educational programs at local schools, placing articles in the Glenorchy Gazette, and setting up an information stall at the Northgate Shopping Centre. Air monitoring stations were also installed in suburbs in Glenorchy to gather air quality data.

To date, the Burn Brighter this Winter project has been very well received and is continuing through until the end of winter 2016.

Improve the uptake of vaccinations in the Glenorchy area

An ongoing key project for the Environmental Health section is to improve the immunisation uptake in the Glenorchy municipality. For the 2015-16 financial year, a focus was placed on improving the return rates of immunisation consent forms for school aged students. To achieve this, Environmental Health staff did the following:

- met with each school individually to discuss all aspects of the program
- attended schools with a historically poor uptake and held a free BBQ breakfast for Grade 7 students with a question and answer session about immunisation
- at the BBQ each student who returned their consent form was provided with a movie ticket, which was kindly donated by Mayor Johnston, Deputy Mayor Quick, and Alderman Pearce
- staff secured an iPad Mini which was generously donated by Harvey Norman Glenorchy, which was used as an incentive prize for the school with the highest vaccination form return rate
- advertised these activities in school newsletters and the Glenorchy Gazette, and
- held 'Catch-up Clinics' after each school term on Wednesdays between 4:30pm – 6:30pm.

Overall the project was a success, however further improvements are required to bring the vaccination rate into line with the national average.

Aldermen's Allowances and Reimbursement of Expenses

Manufacture and Supply of Crushed Rock Metals	2/12/2015	30/11/2017	N/A	N/A	Schedule of rates is contracted	Boral Construction Materials Group Ltd	PO Box 36, Launceston TAS 7250

Non-application of tender process

Regulation 29(2), Local Government (General) Regulations 2015

There were no instances during the 2015-16 Financial Year where Council did not invite tenders for any contract pursuant to regulations 27(a) and (i) of the Local Government (General) Regulations 2015.

Public Interest Disclosures Act

Section 86, Public Interest Disclosures Act 2002

Council's PID procedures

As a public body, Glenorchy City Council is committed to the aims and objectives of the Public Interest Disclosures Act 2002 (PID Act).

In accordance with the PID Act, Council's has adopted a set of procedures for reporting disclosures of improper conduct or detrimental action by Council's members, officers and employees. Council's procedures are contained in its 'Model PID Procedures Manual'. The manual can be accessed through Council's website (www.gcc.tas.gov.au).

Reportable PID matters

Pursuant to the requirements of section 86 of the Public Interest Disclosures Act 2002, Council provides the following information relating to actions taken under the Act during the 2015-16 financial year.

Section of PID Act	Disclosure Requirement	Reportable matters in 2015-16
86(b)	number and types of disclosures made to the public body during the year and the number of those disclosures that the public body determines to be public interest disclosures	Nil
86(c)	number of disclosures determined by the public body to be public interest disclosures that it investigated during the year	Nil
86(d)	number and types of disclosed matters referred to the public body during the year by the Ombudsman	Nil
86(e)	number and types of disclosed matters referred during the year by the public body to the Ombudsman to investigate	Nil
86(f)	number and types of investigations of disclosed matters taken over by the Ombudsman from the public body during the year	Nil
86(g)	number and types of disclosed matters that the public body has decided not to investigate during the year	Nil
86(h)	number and types of disclosed matters that were substantiated on investigation and the action taken on completion of the investigation	Nil
86(i)	any recommendations of the Ombudsman under this Act that relate to the public body	Nil

Other Legislative Requirements

Code of conduct complaints

Section 72(1)(ba)

No code of conduct complaints were upheld either wholly or in part during the 2015-16 financial year.

Code of conduct costs

Section 72(1)(bb)

Council did not incur any costs in respect of any code of conduct complaints during the 2015-16 financial year.

Enterprise powers

Section 72(1)(ca)

Council did not exercise any of the powers available under section 21 of the Local Government Act 1993 in the 2015-16 financial year.

Senior employee remuneration

Section 72(1)(cd)

The details of the remuneration of key management personnel holding senior positions are set out in Part 4 – Financial Report to this Annual Report (see note 45).

Land donated under section 177

Section 72(1)(da)

Council did not make any donations of land pursuant to section 177 of the Local Government Act 1993 during the financial year.

Other prescribed matters

Section 72(1)(e)

See Tenders and Contracts (page 36).

Details of any grant made or benefit provided Section 77

The details of grants made and benefits provided by Council under section 77 of the Local Government Act 1993 are set out in Part 4 – Financial Report to this Annual Report (see note 48).

¹ The recognition of non-monetary asset contributions and Land under roads acquired prior to 30 June 2008 has had a significant impact on the surplus/(deficit) in 2015-16. The formation component of car parks was recognised in 2015-16 which led to a significant increase in the non-monetary contributions for Transport assets. Refer to note 8(b) for further information. Land under roads acquired prior to 30 June 2008 has been recognised for the first time, consistent with the Report to Parliament by the Auditor-General No. 5 of 2013-2014 Infrastructure Financial Accounting in Local Government. Refer to note 30 for further information.

Notes to and forming part of the financial report for the Year Ended 30 June 2016

1 Reporting Entity

Glenorchy City Council ("Council") was established on 24 October 1964 and is a body corporate with perpetual succession and a common seal.

Council's main office is located at 374 Main Road, Glenorchy.

2 Basis of accounting

This financial report is a general purpose financial report that consists of a Statement of Profit or Loss and Other Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, Statement of Cash Flows, and notes accompanying these financial statements. The financial report complies with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board (AASB), and the Local Government Act 1993 (LGA1993) (as amended).

This financial report is prepared on the accrual and going concern basis.

Dollar amounts shown in the general purpose financial report are rounded to the nearest thousand.

This financial report has been prepared under the historical cost convention, except where specifically stated in notes 27, 17, 36, 20, 26, 23 and 24.

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation, and disclosure has been made of any material changes to comparatives.

All entities controlled by Council that have material assets or liabilities, such as Special Committees of Management have been included in this financial report. All transactions between these entities and Council have been eliminated in full. Details of entities not included in this financial report based on their materiality are detailed in note 46.

3 Uses of judgements and estimates

Judgements and assumptions

In the application of Australian Accounting Standards, Council is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other

factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period. If the revisions affect both current and future periods, then the estimates apply to both periods.

Council has made no assumptions concerning the future that may cause a material adjustment to the carrying amounts of assets and liabilities within the next reporting period. Judgements made by Council that have significant effects on the financial report are disclosed in the relevant notes as follows:

Employee entitlements

Assumptions are utilised in the determination of Council's employee entitlement provisions. These assumptions are discussed in note 23.

Defined benefit superannuation fund obligations

Actuarial assumptions are utilised in the determination of Council's defined benefit superannuation fund obligations. These assumptions are discussed in note 47.

Fair value of property, plant & equipment

Assumptions and judgements are utilised in determining the fair value of Council's property, plant and equipment including useful lives and depreciation rates. These assumptions are discussed in note 27.

Investment in TasWater

Assumptions utilised in the determination of Council's valuation of its investment in TasWater are discussed in note 26.

Landfill Rehabilitation

Assumptions and judgements are utilised in determining Council's landfill close-down and restoration costs. These are discussed in note 23.

		Note	2016 \$'000	2015 \$'000
4	Rates			
	Council uses Assessed Annual Value (AAV) as the basis of valuation of all properties within the municipality. The AAV of a property is its base amount used to calculate the annual rates. The AAV is multiplied against the rate in the dollar to give the annual rates amount.			
	The valuation base used to calculate general rates for 2016 was \$355,463,980 (2015: \$344,076,287). The 2016 rate in the dollar was \$0.071270 (2015: \$0.075713). The increase in the AAV from 2015 to 2016 was due to adjustment factors being applied by the Valuer General.			
	Rates charge		29,439	28,136
			50	63
	Interest charge Penalty charge		172	201
			63	43
	Recovery of legal expenses State Government charges and levies		03	43
	State Fire Commission contribution		4,719	4,428
	Less Government subsidies		(1,716)	(1,718)
	Less Government subsidies		32,727	31,153
	The date of the latest general revaluation of land for rating purposes within the municipality was 1 January 2011, and the valuation was first applied in the rating year commencing 1 July 2011.			.,
	Accounting policy			
	Rates income			
	Rates income is recognised as rate revenue when Council obtains control over the assets comprising the receipt. Rate revenue obtained during the reporting period which relates to future rating periods is recognised as a liability and disclosed in note 25.			
	Control over assets acquired from rates is obtained at the commencement of the rating year as it is an enforceable debt linked to the rateable property. A provision for impairment on rates has not been established as unpaid rates represent a charge against the rateable property that will be recovered when the property is next sold.			
5	User charges and licences			
3	Childcare		579	605
	Registration and licences		492	458
	Derwent Entertainment Centre		1,627	1,345
	Derwent Park Reuse sales		240	1,545
	Development and building		969	1,065
	Garbage and recycling		6,066	6,010
	General fines and infringements		371	442
	Rental revenue		547	675
	Other fees and charges		223	201
	Sales is a straight and straight		11,114	10,942
				.0,, 12

Ageing analysis of contractual receivables

Please refer to notes 18 and 42 for the ageing analysis of trade and other receivables.

Accounting policy

User charges and licences income

User fees and charges (including fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs. A provision for impairment is recognised when collection in full is no longer probable.

		Note	2016 \$'000	2015 \$'000
5	User charges and licences (continued)			
	Rents are recognised as revenue when the payment is due, or the payment is received, whichever first occurs. Rental payments received in advance are recognised as a prepayment until they are due.			
	Operating leases as lessor Council is a lessor and enters into agreements with a number of lessees. These include commercial and non-commercial agreements.			
	Where leases are non-commercial agreements, these are generally with not-for-profit organisations, such as sporting clubs. In these cases subsidised or peppercorn rents are charged because Council recognises part of its role is community service and community support. In these situations, Council records lease revenue on an accruals basis and records the associated properties as part of land and buildings within property, plant and equipment. Buildings are recognised at depreciated replacement cost.			
	Where leases are commercial agreements, but properties leased are part of properties predominantly used by Council for its own purposes, Council records lease revenue on an accruals basis and records the associated properties as part of land and buildings within property, plant and equipment. Buildings are recognised at depreciated replacement cost.			
	Where leases are commercial agreements, and properties leased are predominantly used for leasing to third parties, Council records lease revenue on an accruals basis and records the associated properties as investment property in accordance with AASB 140. These properties are recognised at fair value. These leases may include incentives which have not been recognised in the Statement of Financial Position, on the basis the amounts are unlikely to be material and could not be reliably measured at balance date.			
6	Net gain/(loss) on disposal of property, infrastructure, plant and equipment			
	Proceeds from disposal of property, infrastructure, plant and equipment		555	2,292
	Less carrying amount of property, infrastructure, plant and equipment		(638)	(4,285)
	Net gain/(loss) on disposal of property, infrastructure, plant and equipment		(83)	(1,993)
	During 2014–15 the sale of one property at 404–408 Main Road Glenorchy resulted in a net loss of \$998,754.			
	Accounting policy			
	Sale of property, plant and equipment, infrastructure			
	The profit or loss on sale of an asset is determined when control of the asset has irrevocably passed to the buyer.			
7	Grants			
	Grants were received in respect of the following:			
	Summary of grants			
	Commonwealth funded grants		3,172	5,180
	State funded grants		545	835
	Others		30	33
			3,747	6,048

Grants (continued)			
The Commonwealth Government provides Financial Assistance Grants to Council for general purpose use and the provision of local roads. In 2014-15 the Commonwealth made early payment of the two quarterly instalments for the following year. In accordance with AASB1004 <i>Contributions</i> , Council recognised these grants as revenue when it received the funds and obtained control.			
Capital grants received specifically for new or upgraded assets			
Blackspot		-	630

		8,030	5,584
Net increase/(decrease) in non-reciprocal grant revenues for the year		(7,674)	(4,915)

		Note	2016 \$'000	2015 \$'000
7	Grants (continued)			
	Accounting policy Grant income – operating and capital Grant income is recognised as revenue when Council obtains control over the assets comprising the receipt.			
	Control over granted assets is normally obtained upon their receipt (or acquittal) or upon earlier notification that a grant has been secured, and are valued at their fair value at the date of transfer.			
	Where grants or contributions recognised as revenues during the financial year were obtained on the condition that they be expended in a particular manner or used over a particular period, and those conditions were undischarged as at the reporting date, the nature of and amounts pertaining to the unused grant is also disclosed. The note also discloses the amount of unused grant or contribution from prior years that was expended on Council's operations during the current year.			
	A liability is recognised in respect of revenue that is reciprocal in nature to the extent that the requisite service has not been provided at balance date and conditions include a requirement to refund unused contributions. Revenue is then recognised as the various performance obligations under an agreement are fulfilled. Council does not currently have any reciprocal grants.			
	Unreceived contributions over which Council has control are recognised as receivables.			
8	Contributions			
	(a) Cash			
	Recreational, leisure and community facilities		104	36
	Parks, open space and streetscapes		206	153
	Recharge work contributions		33	43
	Other		2	1
			345	233
	(b) Non-monetary assets			
	Buildings		659	397
	Land		218	760
	Stormwater		996	2,694
	Transport		15,382	668
			17,255	4,519
			,255	.,
	Total contributions		17,600	4,752

There was a significant increase in non-monetary contributions for Transport assets in 2015-16. The majority of the increase was due to Council recognising the formation component of car parks which includes the cost of excavation and preparation of land. Previously only the pavement and seal components were recorded for car parks.

Accounting policy Contribution income

Contributions are recognised as revenue when Council obtains control over the assets comprising the receipt.

Revenue is recognised when Council obtains control of the contribution or the right to receive the contribution, it is probable that the economic benefits comprising the contribution will flow to Council and the amount of the contribution can be measured reliably. Control over contributed assets is normally obtained upon their receipt (or acquittal) or upon earlier notification that a contribution has been secured, and are valued at their fair value at the date of transfer.

Unreceived contributions over which Council has control are recognised as receivables.

Non-monetary contributions (including developer contributions) with a value in excess of the recognition thresholds, are recognised as revenue and as non-current assets.

Transport assets written off in 2015-16 included a number of roundabout assets totalling \$2,153,094. Through detailed condition assessments and road measurements it was discovered that road segments leading to and through each roundabout had already been valued within road pavement assets.

Depreciation and amortisation (continued)

Accounting policy

Depreciation and amortisation expense

Depreciation and amortisation expenses are recognised in the Statement of Profit or Loss and Other Comprehensive Income when a decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably.

Buildings, land improvements, plant and equipment, infrastructure and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets.

All non-current assets excluding land are depreciated over their useful lives (as determined by Council's officers) on a straight line basis. Major depreciation periods used are listed below and are consistent with the prior year unless otherwise stated:

	Useful life (years)
Buildings and other land improvements	
Freehold buildings	10 to 95
Other land improvements	5 to 50
Equipment and furniture	
Furniture, fittings and office equipment	3 to 20
Computer systems and technical equipment	3 to 10
Other infrastructure	
Signalised or roundabout intersections	15 to 50
Islands	35 to 50
Car parks	20 to 80
Plant and vehicles	
Infrastructure plant	5 to 75
Fleet	3 to 5
Mobile plant	5 to 20
Minor plant	3 to 5
Transport	
Road pavement surface	10 to 30
Road pavement base	70 to 80
Road pavement earthwork	Unlimited
Kerb and channel	5 to 75
Bridges	40 to 80
Stormwater and drainage	
Pipes	60 to 135
Nodes	50 to 120
Natural water course improvements	80
Silt basins	120
Concrete culverts and spoon drains	50 to 120
Valuation rolls	
Valuation roll of the municipality	5 to 6

A review of the useful life for Transport infrastructure assets across the city was undertaken during the year. The review resulted in an extension of the estimated useful lives of these assets, and resulted in a reduction in depreciation expense of \$2,065,000 in 2015-16.

	Less impairment expense	1,137	(152)
	2000 Impairment expense	1,157	1,461
		1,107	1,101

Accounting policy

Non-current assets classified as held for sale

A non-current asset held for sale (including disposal groups) is measured at the lower of its carrying amount and fair value less costs to sell, and are not subject to depreciation. Non-current assets, disposal groups and related liabilities assets are treated as current and classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset's sale (or disposal group sale) is expected to be completed within 12 months from the date of classification.

(b) Redundancy provision

During 2014-15 Council undertook an organisational restructure which resulted in redundancies. The 2015 provision was fully utilised as at 30 June 2016.

		Note	2016 \$'000	2015 \$'000
23	Provisions (continued)			
(c)	Landfill restoration			
	Council operates a Landfill at Jackson Street that is deemed to have a further useful life of at least 7 years from 30 June 2016. On closure of the landfill, Council will face close-down and restoration costs. Current estimates of the respective costs are based on management advice and engineering studies using current restoration standards and techniques.			
	Under legislation Council is obligated to rehabilitate the landfill site to a particular standard. Current projections indicate that the landfill site will cease operation in 2023. Rehabilitation is occurring progressively with major works planned in 2018 and after the landfill closes in 2023. The forecast life of the landfill site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs. Council does not expect to receive reimbursement from a third party.

Accounting policy

Provisions

Provisions are liabilities of uncertain timing and amount and are recognised where there is a present legal, equitable or constructive obligation as a result of a past event and when the outflow of economic benefits is probable and can be measured reliably.

Employee entitlements provision

Employee entitlements are accrued for salaries, annual leave, sick leave and long service leave in respect of services provided by employees up to the reporting date. The sick leave accrual relates to 25.00% of the outstanding balance, which is payable to permanent employees upon termination.

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be wholly settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave is recognised in the provision for employee entitlements. All other short-term employee entitlement obligations are presented as payables.

23 Provisions (continued)

(ii) Other long-term employee benefit obligations

The liability for long service leave and annual leave which is not expected to be wholly settled within 12 months after the end of the period in which the employees render the related service is recognised in the provision for employee entitlements and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

The obligations are presented as current liabilities in the Statement of Financial Position if the Council does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

(iii) Retirement benefit obligations

All employees of the Council are entitled to benefits on retirement, disability or death. Council contributes to various defined benefit plans and defined contribution plans on behalf of its employees.

Defined benefit plans

A liability or asset in respect of defined benefit superannuation plans would ordinarily be recognised in the Statement of Financial Position, and measured as the present value of the defined benefit obligation at the reporting date plus unrecognised actuarial gains (less unrecognised actuarial losses) less the fair value of the superannuation fund's assets at that date and any unrecognised past service cost. The present value of the defined benefit obligation is based on expected future payments which arise from membership of the fund to the reporting date, calculated annually by independent actuaries using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. However, when this information is not reliably available, Council accounts for its obligations to defined benefit plans on the same basis as its obligations to defined contribution plans i.e. as an expense when it becomes payable.

Council makes superannuation contributions for a number of its employees to the Quadrant Defined Benefits Fund, which is a sub fund of the Quadrant Superannuation Scheme. The Quadrant Defined Benefits Fund has been classified as a multi-employer sponsored plan. As the Fund's assets and liabilities are pooled and are not allocated by employer, the Actuary is unable to allocate benefit liabilities, assets and costs between employers. As provided under paragraph 32(b) of AASB 119 *Employee Benefits*, Council does not use defined benefit accounting for these contributions.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Provisions - Other

Employment on-costs

Payroll tax is not an employee benefit and it is recognised separately as a liability when the employment to which it relates has occurred. Payroll tax is included as part of the Council's 'Employee benefits' in the Statement of Profit or Loss and Other Comprehensive Income. The related liability is included in 'Employment on-costs provision'.

Close-down and restoration costs – Landfill

Close-down and restoration costs include the dismantling and demolition of infrastructure and the removal of residual materials and remediation of disturbed areas. Estimated close-down and restoration costs are provided for in the accounting period when the obligation arising from the related disturbance occurs, whether this is during the development or during the operation phase, based on the net present value of estimated future costs. Provisions for close-down and restoration costs do not include any additional obligations which are expected to arise from future disturbance. The costs are estimated on the basis of a closure plan. The cost estimates are calculated annually during the life of the operation to reflect known developments, e.g. updated cost estimates and revisions to the estimated lives of operation, and are subject to formal review at regular intervals.

Close-down and restoration costs are a normal consequence of landfill operations, and the majority of close-down and restoration expenditure is incurred at the end of the life of the operation. Although the ultimate cost to be incurred is uncertain, Council estimates the respective costs based on feasibility and engineering studies using current restoration standards and techniques.

The amortisation or 'unwinding' of the discount applied in establishing the net present value of provisions is charged to the Statement of Profit or Loss and Other Comprehensive Income in each accounting period where material. The amortisation of the discount is shown as a finance cost (refer note 16).

	Non-current borrowings		5,168	6,036
			6,020	6,815
	The loan portfolio owed by Council to Tascorp has been reviewed by Tascorp effective 30 June 2016. Following this review it was determined that having regard to the fixed rate of interest applicable for the remaining life of each loan, that the approximate net fair value (which equates to current market value) is \$6,342,464 (2015: \$7,135,256) compared to the actual value of \$6,020,100 (2015: \$6,814,357). All loan funds are secured against future Council rate revenue.			
	The maturity profile for Council's borrowings is.			
	Not later than one year		-	-
	Later than one year and not later than five years		856	-
	Later than five years		5,164	6,815
			6,020	6,815
				_
	Accounting policy			
	Borrowings			
	The borrowing capacity of Council is limited by the <i>Local Government Act</i> 1993. Interest bearing liabilities are initially recognised at fair value, net of transaction costs incurred. Subsequent to initial recognition, these liabilities are measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit or Loss and Other Comprehensive Income over the period of the liability using the effective interest method.			
,	Other current liabilities			
	Trust monies held (Derwent Entertainment Centre)		17	32

	Other refundable deposits		39	39
			2,285	2,580

Accounting policy Other current liabilities

Amounts received as deposits and retention amounts controlled by Council are recognised as Trust funds until they are returned or forfeited.

	Note	2016 \$'000	2015 \$'000
26	Investment in TasWater		
	Balance at the beginning of the year	161,184	159,900
	Change in fair value of investment	-	-
	Fair value adjustments on available-for-sale assets	2,744	1,284
	Balance at the end of the financial year	163,928	161,184

Council has derived returns from TasWater as disclosed at note 9.

Council does not have significant influence to allow it to use the equity method to account for this interest.

Accounting policy

Investment in TasWater

Council's investment in TasWater is valued at its fair value at balance date. Fair value was determined by using Council's ownership interest against TasWater's net asset value at balance date. At 30 June 2016, Council held a 10.41% (2015: 10.41%) ownership interest in TasWater which is based on schedule 2 of the Corporation Constitution which reflects the Council's voting rights. Any unrealised gains and losses are recognised through the Statement of Profit or Loss and Other Comprehensive Income to a Fair Value Reserve each year (refer note 40).

Council has classified its investment in TasWater as an available-for-sale financial asset as defined in AASB 139 Financial Instruments: Recognition and Measurement and has followed AASB 132 Financial Instruments: Presentation and AASB 7 Financial Instruments: Disclosures to value and present the asset in the Financial Report.

(a) Impairment losses

Impairment losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income under other expenses. Reversals of impairment losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income under other revenue.

27 Property, infrastructure, plant and equipment (continued)

Accounting policy

Recognition and measurement of assets

- (a) All material items were considered and an assessment made to determine if such items are assets.
- (b) If expenditure on an asset improves its service potential or future economic benefits (i.e. the useful life is extended) then this expenditure will be capitalised (added to the value of the asset). If not, the expenditure will be charged to the Statement of Profit or Loss and Other Comprehensive Income as repairs/maintenance.
- (c) Asset categories of Council are specified in the asset matrix. Asset categories will be consolidated into the following broad categories of nature or type:

Transport;

Stormwater and drainage;

Land;

Buildings and other land improvements;

Plant and vehicles;

Equipment and furniture;

Valuation roll; and

Capital works in progress.

- (d) All assets that have a cost or other value that can be reliably measured will be recorded in the Statement of Financial Position at the end of the reporting period. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition.
- (e) Council adopts depreciated replacement cost or fair value for all property assets.
- (f) Assets are recorded by identifying separately their gross carrying value and any accumulated depreciation, other than capital works in progress.
- (g) The asset capitalisation threshold adopted by council is \$1,500. Assets valued at less than \$1,500 are charged to the Statement of Profit or Loss and Other Comprehensive Income in the year of purchase (other than where they form part of a group of similar items which are material in total).
- (h) Where a number of like items exist with individual values below the recognition threshold for future transactions, then these items will be recognised as a group, provided their total value as a group is in excess of the capitalisation threshold for that category.
- (i) Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.
- (j) Plant and vehicles, other than plant associated with property are recorded at cost.
- (k) Property, infrastructure, plant and equipment received in the form of contributions, are recognised as assets and revenues at fair value by Council valuation where that value exceeds the recognition thresholds for the respective asset class. Fair value is the price that would be received to sell the asset in an orderly transaction between market participants at the measurement date.
- (I) All property, and plant and equipment assets which relate to property assets, are revalued to their depreciated replacement cost in accordance with the asset matrix. Revaluations will be conducted with sufficient regularity, so as to ensure they represent fair value.
- (m) If Council believes asset values within a class have materially changed between scheduled revaluations, the asset class value will be indexed by an appropriate inflation factor.
- (n) All net revaluation increments for a class are credited directly to the asset revaluation reserve account. However, the increment is charged to the Statement of Profit or Loss and Other Comprehensive Income to the extent that it reverses a net revaluation decrease of the same class of assets previously recognised in the income statement. Net revaluation decrements for a class of assets will be debited to any previous revaluation increments for that class of assets, with any deficiency being charged to the Statement of Profit or Loss and Other Comprehensive Income.
- (o) For assets acquired after a revaluation the cost method of accounting is used. Cost is determined as the fair value of the asset given as consideration plus costs incidental to the acquisition (e.g. architects fees, engineering design fees, administration charges, direct and indirect salary costs, overheads and all other costs incurred in getting the asset ready for use), and, if applicable, the initial estimate of the cost of dismantling and removing the asset and restoring the site on which it is located. All property, plant and equipment assets that are replaced or retired are removed from the asset register. This includes the gross replacement cost of the asset and the related accumulated depreciation.
- (p) Capital works in progress are recorded at cost.
- (q) Land under roads acquired since 30 June 2008 has been recognised in past financial reports as part of Transport assets. Land under roads acquired prior to 30 June 2008, is being recognised for the first time in the 2016 Financial Report, consistent with the Report to Parliament by the Auditor-General No. 5 of the 2013-2014 Infrastructure Financial Accounting in Local Government. Land under roads is now reported within the land category of non-current assets. Those assets previously recognised have been removed from the Transport asset category.

		Note	2016 \$'000	2015 \$'000
28	Transport		405 507	4/0.0/4
	At valuation (1 July 2012) Less accumulated depreciation		485,587 (221,232)	462,864 (252,843)
	Roads at fair value	27	264,356	210,021
	During 2015-16 a review of the useful lives of Transport assets resulted in a partial revaluation of this asset class. The impact of the change in useful lives on accumulated depreciation totalled \$40,286,816.			
29	Stormwater and drainage		050.004	0.4.404
	At valuation (1 July 2009)		353,821	346,126
	Less accumulated depreciation Less impairment expense		(174,686) (51)	(172,105) (51)
	Stormwater and drainage at fair value	27	179,084	173,970
	-	2,	177,001	170,770
	A provision for an impairment has been recognised for \$50,883. The impairment is based on the inspection and evaluation of Stormwater assets that were damaged during their construction.			
30	Land			
	General land – at valuation (30 June 2011)		51,105	51,306
	Land under roads – at valuation (30 June 2016)		139,764	5,185
	Land at fair value	27	190,869	56,491
	The valuation of land has increased significantly due to land under roads acquired prior to 30 June 2008, being recognised for the first time in the 2016 Financial Report. This is consistent with the Report to Parliament by the Auditor-General No. 5 of the 2013-2014 Infrastructure Financial Accounting in Local Government. The fair value of land under roads has been determined based on unit valuations provided by the Valuer-General.			
31	Buildings and other land improvements			
	At valuation (30 June 2015)		92,085	88,901
	Less accumulated depreciation		(46,708)	(44,527)

	Capital works in progress		21,184	16,556

36	Investment properties	Note	2016 \$'000	2015 \$'000
50	Balance at beginning of financial year		7,975	6,231
	Transfer in		1,350	1,744
	Transfer out		-	-
	Balance at end of financial year		9,325	7,975
	Accounting policy Investment Properties Investment properties, comprising car parking lots and residential properties, are held to generate long-term rental yields. Investment properties are measured initially at cost, including transaction costs. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefit in excess of the originally assessed performance of the asset will flow to Council. Subsequent to initial recognition at cost, investment properties are carried at fair value. Changes to fair value are recorded in the Statement of Profit or Loss and Other Comprehensive Income in the period that they arise. Rental income from the leasing of investment properties is recognised in the Statement of Profit or Loss and Other Comprehensive Income on a straight line basis over the lease term.			
37	Commitments for expenditure			
	(a) Operating lease commitments			
	At the reporting date, Council had the following obligations under non-cancellable operating leases (these obligations are not recognised as liabilities):			
	Not later than one year		1,017	1,127
	Later than one year and not later than five years		1,747	1,252
	Later than five years		-	
			2,764	2,379

The Council leases vehicles and mobile plant and equipment under operating leases, expiring from 1-4 years. Leases generally provide the entity with a right of renewal at which time all terms are renegotiated.

Lease payments are initially established based on expected operating criteria and may adjust depending upon material variations in such operating criteria.

The Council leases office equipment under operating leases, expiring from 1-3 years. Leases generally provide the entity with a right of renewal at which time all terms are renegotiated. Terms of the leases are fixed at the time of the lease start date.

The Council leases office premises under operating leases, expiring within 1 year. Leases generally provide the entity with a right of renewal at which time all terms are renegotiated. Terms of the lease are fixed at the time of the lease start date.

Accounting policy **Operating leases**

Leases in which a significant portion of the risks and rewards of ownership are not transferred to Council as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit or Loss and Other Comprehensive Income on a straight line basis over the period of the lease. Council leases vehicles and mobile plant and equipment, office equipment and office premises.

		Note	2016 \$'000	2015 \$'000
37	Commitments for expenditure (continued)			
	Council leases several parcels of Crown land under lease agreements with the State Government. These leases, in general, do not reflect commercial arrangements, are long-term and have minimal lease payments. Crown land is recognised as an asset in the Statement of Financial Position and carried at fair value when Council establishes that (i) it has control over the land and (ii) it will derive economic benefits from it.			
	Finance leases Council has no finance lease obligations at 30 June 2016.			
	(b) Capital commitments			
	Capital expenditure contracted for at the reporting date but not recognised in the financial statements as liabilities:			
	Property		3,369	8,114
	Transport		1,567	2,708

40 Reserves (continued)

Nature and purpose of reserves:

Revenue reserves

Revenue reserves for car parking, public open space and community-based programs reflect the statutory or thirdparty compulsory contributions that are required to be expended for specific purposes in future periods. On that basis, a portion of the operating result must be set aside in these reserves.

The City revaluation reserve represents funds set aside to undertake a city wide revaluation as authorised by the Valuer-General. This revaluation occurs every seven years.

The Landfill future close out costs reserve is maintained for the restoration or rehabilitation of land to meet planning requirements and environmental standards.

The other reserves noted are maintained to provide for recurring, non-annual expenditure (Irregular operating expenses reserve); to provide for future property, plant and equipment requirements (Property, plant and equipment); and specific expenditure not completed in the previous year (Incomplete works). Net proceeds from asset sales are set aside to fund future property purchases.

Fair value reserve

The Fair value reserve includes the net revaluation increments and decrements arising from the revaluation of Council's share of the investment in TasWater.

Asset revaluation reserves

The Asset revaluation reserves include the net revaluation increments and decrements arising from the revaluation of property, plant and equipment assets in accordance with accounting policy (note 27).

Where a revalued asset is sold that portion of the asset revaluation reserve which relates to that asset, and is effectively realised, is transferred directly to Community Equity.

42 Financial instruments

(a)) <i>A</i>	Accounting	policy,	terms	and	conditions

Financial instruments	Note	Accounting policy	Terms and conditions
Financial assets Cash and cash equivalents	17	Comprises cash on hand and cash in bank.	On call deposits returned an average interest rate of 1.58% (2015: 2.12%). The interest rate at 30 June 2016 was 1.55% (2015: 1.50%).
		Investments are held to maximise interest returns on surplus cash.	The weighted average interest rate received for investments was 2.90% (2015: 2.96%).
		Interest revenues are recognised as they accrue.	
Trade and other receivables			
Receivables rates and charges	18	Rates are carried at nominal amounts due plus interest. Rate debts are a charge attached to the rateable land and are recoverable on sale, therefore, no allowance for doubtful debts is made. Interest rates are reviewed annually.	Rates are payable by 2 instalments during the year. Arrears, including deferred rates, attract interest. The interest rate at 30 June 2016 was 8.46% for general rates (2015: 10.02%).
Receivables other	18	Receivables are carried at nominal amounts due less any allowance for doubtful debts. An allowance for doubtful debts is recognised when collection in full is no longer probable.	General debtors are unsecured.
Available for sale financial assets		Collectability of overdue accounts is assessed on an ongoing basis.	
Investment in TasWater	26	The investment in TasWater is valued at its fair value at 30 June 2016. Fair value was determined by using Council's ownership interest against the water corporation's net asset value at 30 June 2016.	
Financial liabilities			
Deposits	25	Deposits are lodged by organisations and individuals when performing work that may adversely affect Council assets. The deposits are repayable on demand or where certain conditions have been met. Deposits are recorded at fair value.	
Payables	22	Liabilities are recognised for amounts to be paid in the future for goods and services provided to Council as at balance date, whether or not invoices have been received.	General creditors are unsecured, not subject to interest charges and are normally settled within specific trading terms or 30 days, whichever is earlier.
Interest-bearing loans and borrowings	24	Loans are carried at amortised cost. Interest is accrued over the period it becomes due and recognised as part of payables.	All loans are secured against the future rate revenue of Council. The weighted average interest rate on borrowings was 5.09% (2015: 5.12%).

Liquidity risk management

Council manages liquidity risk by maintaining adequate reserves, banking facilities and borrowing facilities. Council monitors cash flows on a regular basis to further reduce liquidity risks.

(b) Liquidity and interest rate risk table

The following table details the Council's remaining contractual maturity for its financial liabilities and expected maturity for financial assets:

	Weighted average	average	Less than 1	1 year	1 to 5 ye	to 5 years	More than 5 years	υ 5 years	Non-bearing	aring	Total	- C

Other liabilities	2,285	2,580	2,285	2,580
Total Financial Liabilities	12,420	13,552	12,742	13,872

(d) Credit risk

The maximum exposure to credit risk at balance date in relation to each class of recognised financial asset is represented by those assets as indicated in the Statement of Financial Position.

(e) Risks and mitigation

Financial risk management

Council undertakes a Strategic and Key Operational risk review on an annual basis. The review evaluates Council's exposure to significant business and financial risks with these outcomes reported to the Audit Panel and to Council. The Council manages its exposure to key financial risks through this process and also through the independent Internal Audit program. The Audit Panel monitors any key risk exposure activities undertaken, and reviews all strategic policy documentation for the Council's management or mitigation of Council's risk exposure.

The Council does not enter into or trade financial instruments including derivative financial instruments, for speculative purposes.

Capital risk management

Council manages its capital to ensure that Council will be able to continue as a going concern while still being able to meet the needs of the community through the optimisation of debt and equity balance. The capital structure of Council consists of debt, which includes the borrowings disclosed in note 24, cash and cash equivalents disclosed in note 17 and equity including community equity and reserves as disclosed in the Statement of Changes in Equity. Council is not subject to externally imposed capital requirements.

Operating cash flows are used to maintain and expand Council's infrastructure and other assets, as well as to make the routine repayment of maturing debt. Council borrows from Tascorp to meet anticipated funding requirements.

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate because of changes in market prices. Council's exposure to market risk is primarily through interest rate risk with only an insignificant exposure to other price risks and no exposure to foreign currency risk. Components of market risk to which Council is exposed are outlined below.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Interest rate risk arises from interest bearing financial assets and liabilities that Council uses. Non-derivative interest bearing assets are predominantly short term liquid assets. The interest rate liability risk arises primarily from long term borrowings at fixed rates which exposes Council to fair value interest rate risk.

Council manages the interest rate exposure on the net debt portfolio by appropriate budgeting strategies and obtaining approval for borrowings from Treasury each year.

Council maintains policies to guide management in the undertaking of borrowings and the investment of short term, surplus funds.

Council's Borrowing Policy establishes a structure to ensure the organisation:

- minimises its costs of borrowings;
- minimises its liquidity risk;
- matches the characteristics of debt with those of the assets being funded, where possible; and
- operates its borrowing activities within legislative and common law responsibilities.

Council's Investment of Short Term Funds Policy establishes a structure to ensure the organisation:

- maximises interest earned on surplus funds within prudent risk limits;
- minimises its liquidity risk; and
- operates its investment activities within legislative and common law responsibilities.

Maturity of investments is staggered to provide for interest rate variations and to minimise interest rate risk.

Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause Council to make a financial loss. Council has exposure to credit risk on all financial assets included in the Statement of Financial Position. To help manage this risk Council:

- has a policy for establishing credit limits for the entities it deals with;
- may require collateral where appropriate; and
- only invests surplus funds with financial institutions which have a recognised credit rating of A- or above.

Credit risk arises from Council's financial assets, which comprise cash and cash equivalents, and trade and other receivables. Council's exposure to credit risk arises from potential default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. Exposure at 30 June is addressed in each applicable policy note. Council generally trades with recognised, creditworthy third parties, and as such collateral is generally not requested, nor is it Council's policy to securitise its trade and other receivables.

Trade and other receivables consist of a number of customers, spread across the consumer, business and government sectors. Ongoing credit evaluation is performed on the financial condition of customers and, where appropriate, an allowance for doubtful debts is raised.

Liquidity risk

Liquidity risk includes the risk that, as a result of operational liquidity requirements the Council:

- will not have sufficient funds to settle a transaction on the date:
- will be forced to sell financial assets at a value that is less than what they are worth; or
- may be unable to settle or recover a financial asset at all.

To help reduce these risks Council:

- has a liquidity policy which targets a minimum level of cash and cash equivalents to be maintained;
- monitors budget to actual performance on a regular basis; and
- sets limits on borrowings in accordance with Council's borrowing policy.

The Council's exposure to liquidity risk is deemed insignificant based on prior periods data and current assessment of risk.

(f) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts and management's knowledge and experience of the financial markets, the Council believes the following movements are 'reasonably possible' over the next 12 months (base rates are sourced from the Commonwealth Bank of Australia):

A parallel shift of +0.25% and -0.25% in market interest rates (AUD) from year end rates of 1.55% (2015: 1.50%).

The table below discloses the impact on net operating result and equity for each category of financial instruments held by Council at year-end, if the above movements were to occur.

Expenses include vehicle, travel, telephone, and other out of pocket expenses.

Related party transactions:

The usual nature of the transactions between Aldermen and Council is:

- to pay rates and other charges;
- to recoup expenses and allowances owing; and
- to meet the costs of attendance at various Council events, seminars or functions.

All of these were normal transactions. Where transactions between Council and the Aldermen are of a commercial nature, they are conducted on a normal arms length basis.

Remuneration of Key Management Personnel holding senior positions

The number of Key Management Personnel noted below represents the General Manager and the Directors. In accordance with the Local Government Act 1993 section 72 (1) (cd), the remuneration of these employees falls within the following bands:

	2016	2015
Current employees		
\$300,000 – \$319,999	-	1
\$260,000 – \$279,999	1	-
\$200,000 – \$219,999	1	=
\$160,000 – \$179,999	2	-
\$140,000 – \$159,999	-	1
\$0 – \$19,999*	-	2
*Employees in this band commenced employment with Council in June 2015.		
Former employees#		
\$160,000 – \$179,999	-	1
\$120,000 – \$139,999	-	4
\$60,000 – \$79,999	1	=
\$40,000 – \$59,999	1	-

These payments do not include redundancies made as a result of the restructure. Redundancies are disclosed at note 11.

Special committees

Glenorchy City Council recognises a special committee when the committee has been adopted by Council under section 24 of the Local Government Act 1993. Below are the committees supported during the reporting period:

- City of Glenorchy Australia Day Award;
- Citizen and Young Citizen of the Year Selection Committee;
- Community Precincts;
- Cultural Diversity Advisory Committee;
- General Manager Performance Review Committee;
- Glenorchy Arts and Culture Advisory Committee;
- Glenorchy City Council Access Committee;
- Glenorchy Emergency Management Committee;
- Glenorchy Tourism Taskforce;
- Glenorchy Tracks, Trails and Cycleways Committee;
- Safer Communities Committee;
- Sport and Recreation Advisory Committee; and
- Youth Task Force.

All expenses associated with these committees have been included in the financial report.

Community precinct committees have been established by Council as special committees and are provided with \$50 per annum to cover expenses. These expenses have been included in the financial report.

The Glenorchy Brass Band is a special committee of Council and maintains its own books and records and operates a separate bank account.

The operations of the Glenorchy Brass Band during 2015–16 were as follows:

	Income	Expenditure	Net result	Cash at bank
	\$'000	\$'000	\$'000	\$'000
Glenorchy Brass Band	17	10	7	24

These results have been consolidated into Council's financial report.

Glenorchy City Council has an Audit Panel established under section 85 of the Local Government Act 1993. Under section 85B of the Act, the Audit Panel complies with the requirements under the Local Government (Audit Panels) Order 2014. All expenses associated with the Audit Panel has been included in the financial report.

47

Council makes superannuation contributions for a number of its employees to the Quadrant Defined Benefits Fund (the Fund). The Fund was a sub fund of the Quadrant Superannuation Scheme (the Scheme) up to 30 November 2015. At this date the Quadrant Superannuation Scheme merged (via a Successor Fund Transfer) into the Tasplan Super and the Quadrant Defined Benefits Fund became a sub fund of Tasplan Super (Tasplan) from that date. The Quadrant Defined Benefits Fund has been classified as a multi-employer sponsored plan. As the Fund's assets and liabilities are pooled and are not allocated by employer, the Actuary is unable to allocate benefit liabilities, assets and costs between employers. As provided under paragraph 34 of AASB 119 Employee Benefits, Council does not use defined benefit accounting for these contributions and accordingly no asset or liability is recognised in these accounts in respect of the scheme.

For the year ended 30 June 2016 Council contributed 9.5% of employees' gross income to the Fund. Assets accumulate in the fund to meet member benefits as they accrue, and if assets within the Fund are insufficient to satisfy benefits payable, Council is required to meet its share of the deficiency.

Rice Warner Pty Ltd undertook the last actuarial review of the Fund at 30 June 2014. The review disclosed that at that time the net market value of assets available for funding member benefits was \$66,310,000, the value of vested benefits was \$57,475,000, the surplus over vested benefits was \$8,835,000, the value of total accrued benefits was \$58,093,000, and the number of members was 187.

The actuarial review concluded that, based on the assumptions used, and assuming the Employer contributes at the levels described below, the value of the assets is expected to continue to be adequate to meet the value of the liabilities of the Fund in respect of vested benefits at all times during the period up to 30 June 2017.

Superannuation (continued)

Council contributes to other accumulation schemes on behalf of a number of employees, however the Council has no ongoing responsibility to make good any deficiencies that may occur in those schemes.

During the reporting period the amount of contributions paid to the Fund was \$129,486 (2015, \$208,685), and the amount paid to accumulation schemes was \$2,070,984 (2015, \$1,991,168).

During the next reporting period the expected amount of contributions to be paid to the Fund is \$124,561 (2015, \$151,953) and the amount to be paid to accumulation schemes is \$2,121,182 (2015, \$2,102,735).

As at 30 June 2015 the Fund had 164 members and the total employer contributions and member contributions for the year ending 30 June 2015 were \$2,083,883 and \$325,833 respectively.

Council adopted reduced disclosure in relation to the Fund based on an assessment that the impact of non-disclosure is insignificant to users of the accounts. The assessment was based on the number of Council employees that are members of the Fund (20) and Council's contributions (as noted above) in comparison to the Fund's total members

	and contributions. In addition, the Fund is currently in surplus. If the Fund's position changes		ncrease 2015
	disclosure will be considered. Note	\$'000	\$'000

Accounting policy

Significant business activities

Council is required to report the operating, capital and competitive neutrality costs in respect of each significant business activity undertaken by the Council. Council's disclosure is reconciled above. Council has determined, based upon materiality that the Derwent Entertainment Centre, Landfill Operations and Childcare Centres as defined above are considered significant business activities. Competitive neutrality costs include notional costs i.e. income tax equivalent, rates and loan guarantees. In preparing the information disclosed in relation to significant business activities, the following assumptions have been applied:

- opportunity cost of capital based upon indiciative yield of the Federal Government 10 year bond rate.
- rates and charges based upon council's 2015-16 rate calculation.
- engineering and administration costs have been based upon a charge of 12.5% of direct operating costs.

(a) Functions and activities of the Council

Income, expenses and assets have been attributed to the following functions and activities. The functions and activities are defined on the following page.

		Income \$'000	Expenses \$'000	Assets \$'000

Legislative, financial, executive and fiscal

Aldermen expenses, election costs, public relations and strategic planning. Also other expenses such as, finance, General Manager's department, information technology and human resources not otherwise allocated.

Public order, fire and safety

Fire protection services, State Emergency Service contributions, enforcement of by-laws, animal and nuisance control.

Community and public health

Infant health services, immunisation services, environmental health - inspection and general services.

Welfare

Childcare, family day care, youth services, handicapped assistance programs and services that serve the social security and welfare systems.

Housing

Rental housing for council employees and others, housing information dissemination.

Community amenities

Crematoria and cemeteries, public conveniences, drinking fountains, public clocks, street furniture and lighting.

Household garbage/protection of the environment

Garbage and refuse disposal, garbage collection and recycling.

Other protection of the environment/biodiversity

Flood protection, street cleaning, stormwater drainage and biodiversity/habitat protection.

Community and regional development

Building inspections, statutory planning – town planning and development applications.

Recreation facilities and services

Parks and reserves, playgrounds, swimming pools, indoor and outdoor sports facilities, halls and civic centres.

Cultural facilities and services

Art galleries, museums, theatres and libraries.

Road, bridge and street infrastructure

Road, bridge and street construction and maintenance, road design and research, road and highway extensions and traffic lights.

Road, plant, parking and other road transport

On and off street parking, bikeway maintenance, roadside revegetation and landscaping and footbridges.

Other economic affairs

Saleyard and markets, development support and incentives, market and promotion – tourism events and Central Business District.

Other purpose

Un-allocable private works and other.

Management indicators

(a) Underlying surplus or deficit	Benchmark	2016 \$'000	2015 \$′000	2014 \$'000	2013 \$'000
Recurrent income* Less recurrent expenditure#		50,668 58,253	50,766 60,690	50,762 56,327	55,799 58,433
Underlying surplus/(deficit)	> \$0	(7,585)	(9,924)	(5,565)	(2,634)

^{*}Recurrent income excludes income received specifically for new or upgraded assets, physical resources received free of charge or other income of a capital nature.

#Recurrent expenditure excludes costs associated with the restructure and impairment expenses.

(b) Underlying surplus ratio

Underlying surplus/(deficit)		(7,585)	(9,924)	(5,565)	(2,634)
Recurrent income*		50,668	50,766	50,762	55,799
Underlying surplus ratio %	2.5% - 5.0%	-15%	-20%	-11%	-5%

This ratio serves as an overall measure of financial operating effectiveness.

Council's underlying surplus/(deficit) ratios reflect deficits in all four years. The negative ratios indicate that Council did not generate sufficient revenue to fulfil its operating requirements. Council is aiming to break even by 2016-17, which is supported by several reviews targeting service levels and service efficiencies.

(c) Net financial liabilities

Liquid assets		16,097	26,651	33,585	43,830
Less total liabilities		21,576	23,028	24,399	25,086
Net financial liabilities	> \$0	(5,479)	3,623	9,186	18,744

This measure shows whether Council's total liabilities can be met by its liquid assets. An excess of total liabilities over liquid assets means that, if all liabilities fell due at once, additional revenue would be needed to fund the shortfall.

Council recorded a negative result in 2016, primarily due to the reduction in Council's cash holdings. Prior year liquid assets have been inclusive of significant capital grant funding, of which approximately \$8 million has been expended in 2015-16. This result is in line with Council's Long Term Finanical Plan.

(d) Net financial liabilities ratio

Net financial liabilities		(5,479)	3,623	9,186	18,744
Recurrent income*		50,668	50,766	50,762	55,799
Net financial liabilities ratio %	<-25%	-11%	7%	18%	34%

This ratio indicates the net financial obligations of Council compared to its recurrent income.

As noted in note (c) the declining trend reflects Councils reducing cash balances that has included capital grant funding for projects close to being completed.

51 Management indicators (continued)

	2016	2015	2014	2013
Benchmark	\$'000	\$'000	\$'000	\$'000

(e) Asset consumption ratio

An asset consumption ratio has been calculated in relation to each asset class required to be included in the long-term strategic asset management plan of Council.

Transport Depreciated replacement cost		264,356	210,021	204,317	206,714
Current replacement cost	40-60%	485,587 54%	462,864 45%	439,593 46%	429,999 48%
Asset consumption ratio %	40-00 //	34/0	43/0	40%	40 /0
Buildings and other land improvements					
Depreciated replacement cost		45,377	44,374	48,709	45,778
Current replacement cost		92,085	88,901	107,366	100,355
Asset consumption ratio %	40-60%	49%	50%	45%	46%
Stormwater and drainage					
Depreciated replacement cost		179,084	173,970	167,891	158,243
Current replacement cost		353,821	346,126	333,594	312,516
Asset consumption ratio %	40-60%	51%	50%	50%	51%

This ratio indicates the level of service potential available in Council's existing asset base. All classes reported above are within the target range.

(f) Asset renewal funding ratio

An asset renewal funding ratio has been calculated in relation to each asset class required to be included in the long-term strategic asset management plan of Council.

Transport Projected capital funding outlays** Projected capital expenditure funding***		81,000 81,000	104,877 104,877	102,183 102,183	95,706 95,706
Asset renewal funding ratio %	90-100%	100%	100%	100%	100%
Buildings and other land improvements Projected capital funding outlays** Projected capital expenditure funding***		21,700	15,455 15,455	20,414	24,441 24,441
Asset renewal funding ratio %	90-100%	100%	100%	100%	100%
Stormwater and drainage					
Projected capital funding outlays**		19,000	15,290	15,384	35,803
Projected capital expenditure funding***		19,000	15,290	15,384	35,803
Asset renewal funding ratio %	90-100%	100%	100%	100%	100%

^{**}Current value of projected capital funding outlays for an asset identified in Council's long-term financial plan.

This ratio measures Council's capacity to fund future asset replacement requirements.

The above results indicate that the Council is presently planning to fund all required asset renewal over the next 25 year period.

^{***}Value of projected capital expenditure funding for an asset identified in Council's long-term strategic asset management plan.

Management indicators (continued)

	Benchmark	2016 \$'000	2015 \$′000	2014 \$'000	2013 \$'000
(g) Asset sustainability ratio					
Capital expenditure on replacement/ renewal of existing assets		11,481	9,417	9,602	9,084
Annual depreciation expense		12,882	15,250	14,774	15,462
Asset sustainability ratio %	100%	89%	62%	65%	59%

This ratio indicates whether Council is maintaining operating capacity through renewal of its existing asset base.

The ratio trend over the last four years reflects the current long-term strategy to maintain replacement and renewal capital programs for the long-term sustainability of the Council's assets.

	Capital renewal expenditure \$'000	Capital new/ upgrade expenditure \$'000	Total Capital expenditure \$'000

Other	871	337	1,208
Total	9,417	7,711	17,129

52 Fair value measurements

Council measures and recognises the following assets at fair value on a recurring basis:

Investment in TasWater

Investment properties

Property, infrastructure plant and equipment

- Buildings and other land improvements
- Land
- Transport
- Stormwater and drainage
- Valuation roll

Council does not measure any liabilities at fair value on a recurring basis.

Council also has assets measured at fair value on a non-recurring basis as a result of being reclassified as assets held for sale. This asset category comprises land as disclosed in note 20. A description of the valuation techniques and the inputs used to determine the fair value of this land is included below under the heading 'Land held for sale'.

Fair value measurements (continued)

(a) Fair value hierarchy

AASB 13 Fair Value Measurement requires all assets and liabilities measured at fair value to be assigned to a level in the fair value hierarchy as follows:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities

that the entity can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable

for the asset or liability, either directly or indirectly.

Level 3 Unobservable inputs for the asset or liability.

The table below shows the assigned level for each asset and liability held at fair value by the Council. The table presents the Council's assets and liabilities measured and recognised at fair value at 30 June 2016.

The fair values of the assets are determined using valuation techniques which maximise the use of observable data, where it is available, and minimise the use of entity specific estimates. If one or more of the significant inputs is not based on observable market data, the asset is included in level 3. This is the case for Council infrastructure assets, which are of a specialist nature for which there is no active market for similar or identical assets. These assets are valued using a combination of observable and unobservable inputs.

As at 30 June 2016	Note	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000

52 Fair value measurements (continued)

Transfers between levels of the hierarchy

There were no transfers between levels 1 and 2 during the year, nor between levels 2 and 3.

(b) Highest and best use

All assets valued at fair value in this note are being used for their highest and best use.

(c) Valuation techniques and significant inputs used to derive fair values

Investment property and Investment in TasWater

The basis of valuation of investment properties is fair value being the amounts that the properties could be exchanged between willing parties in an arm's length transaction, based on current prices in an active market for similar transactions in the same location and condition and subject to similar leases. Council's investment in TasWater is valued at its fair value at 30 June. Fair value is determined by Council's ownership interest against TasWater's net asset value at 30 June.

Land

Land fair values were determined by the Valuer General effective 30 June 2011.

Land classified as held for sale during the reporting period was measured at the lower of its carrying amount and fair value less cost to sell at the time of reclassification. The fair value of the land was determined using the approach described in the preceding paragraph.

Land under roads

Land under roads acquired since 30 June 2008 has been recognised in past Financial Reports as part of road assets. Land under roads acquired prior to 30 June 2008 is being recognised for the first time in the 2016 Financial Report, consistent with the Report to Parliament by the Auditor-General No. 5 of 2013-2014 Infrastructure Financial Accounting in Local Government. Because of its materiality, land under roads is now reported within the land category of non-current assets. Those assets previously recognised have been removed from road assets for inclusion in land under roads.

Buildings and other land improvements

The fair value of buildings including buildings of a specialist nature (eg heritage buildings) were determined by a qualified independent valuer effective 30 June 2015. The most significant input into this valuation approach was price per square metre.

In determining the level of accumulated depreciation the asset has been disaggregated into significant components which exhibit useful lives. Allowance has been made for the typical asset life cycle and renewal treatments of each component, and residual value at the time the asset is considered to be no longer available for use.

While the unit rates based on square metres can be supported by market evidence (level 2), the estimates of residual value and useful life that are used to calculate accumulated depreciation comprise unobservable inputs (level 3). Where these other inputs are significant to the valuation the overall valuation has been classified as level 3.

As part of the revaluation, significant components were separately identified and new useful lives were assigned to each component. As a result depreciation expense is expected to increase in future periods due to shorter useful lives being applied over a number of components.

Infrastructure assets

All Council infrastructure assets were fair valued using written down current replacement cost. This valuation comprises the asset's current replacement cost (CRC) less accumulated depreciation calculated on the basis of such cost to reflect the already consumed or expired future economic benefits of the asset. Council first determined the gross cost of replacing the full service potential of the asset and then adjusted this amount to take account of the expired service potential of the asset.

CRC was measured by reference to the lowest cost at which the gross future economic benefits of the asset could currently be obtained in the normal course of business. The resulting valuation reflects the cost of replacing the existing economic benefits based on an efficient set of modern equivalent assets to achieve the required level of service output.

The unit rates (labour and materials) and quantities applied to determine the CRC of an asset or asset component were based on a "Greenfield" assumption meaning that the CRC was determined as the full cost of replacement with a new asset including components that may not need to be replaced, such as earthworks.

The level of accumulated depreciation for infrastructure assets was determined based on the age of the asset and the useful life adopted by Council for the asset type. Estimated useful lives and residual values are disclosed in note 13.

The calculation of CRC involves a number of inputs that require judgement and are therefore classed as unobservable. While these judgements are made by qualified and experienced staff, different judgements could result in a different valuation. The table at (d) below summarises the effect that changes in the most significant unobservable inputs would have on the valuation.

The methods for calculating CRC are described under individual asset categories below.

52 Fair value measurements (continued)

Transport

Council categorises its road infrastructure into urban and rural roads and then further sub-categorises these into sealed and unsealed roads. Urban and rural roads are managed in segments. These segments are based on intersections. An intersection is where a road intersects with another road. All road segments are then componentised into formation, pavement, sub-pavement and seal (where applicable). Council assumes that environmental factors such as soil type, climate and topography are consistent across each segment. Council also assumes a segment is designed and constructed to the same standard and uses a consistent amount of labour and materials.

CRC is based on the road area multiplied by a unit price; the unit price being an estimate of labour and material inputs, services costs, and overhead allocations. Council assumes that pavements for high traffic areas that were constructed after 1984 are constructed to depths of 40cm. All other pavements are constructed to depths of 20cm or less. For internal construction estimates, material and services prices are based on existing supplier contract rates or supplier price lists, and labour rates are based on Council's Enterprise Bargaining Agreement (EBA) with a percentage provision for any other employee on costs.

A review of transport infrastructure useful life was undertaken by Council's Asset Management Coordinator effective 30 June 2016. A comprehensive review including benchmarking, sample testing and collating condition data was undertaken. In addition a suitably qualified expert was engaged to review and endorse the proposed changes.

Bridges

A full valuation of bridge assets was undertaken by independent valuers, AusSpan, effective 30 June 2014. Each bridge is assessed individually and componentised into sub-assets representing the deck and sub-structure. The valuation is based on the material type used for construction and the deck and sub-structure area.

Stormwater and drainage

A review of useful life for drainage infrastructure was undertaken by Council's Engineer and Asset Management Coordinator effective 30 June 2014. Similar to roads, stormwater and drainage assets are managed in segments; pits and pipes being the major components.

Consistent with roads, Council assumes that environmental factors such as soil type, climate and topography are consistent across each segment and that a segment is designed and constructed to the same standard and uses a consistent amount of labour and materials.

CRC is based on the unit price for the type of asset component. For pipes, the unit price is multiplied by the asset's length. The unit price for pipes is based on the construction material as well as the depth the pipe is laid.

Other Infrastructure

Other infrastructure is not deemed to be significant in terms of Council's Statement of Financial Position.

(d) Changes in recurring level 3 fair value measurements

The changes in level 3 assets with recurring fair value measurements are detailed in note 27 (Property, infrastructure, plant and equipment). Investment in TasWater, which is classified as level 3 has been separately disclosed in note 26. There were no transfers between level 1, 2 or 3 measurements during the year.

30 June 2016	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$′000
Available for sale financial assets	-	-	163,928	163,928
Total	-	-	163,928	163,928
There were no transfers between Level 1 an	d Level 2 in the period			
30 June 2015				
Available for sale financial assets	-	-	161,184	161,184
	-	_	161,184	161,184

There were no transfers between Level 1 and Level 2 in the period

2017

52 Fair value measurements (continued) Reconciliation of Level 3 Fair Value Movements

	\$'000	\$'000
Opening balance		
Investment on transfer of assets	161,184	159,900
Gain (losses) recognised in other comprehensive income:		
Change in fair value of investment in TasWater	2,744	1,284
Closing balance	163,928	161,184

(e) Valuation processes

Council uses unit rates based on internal estimating software where available or a contracted rate when the internal information is not available. Where there is no basis to provide a rate from these two sources Rawlinson's Construction Cost Guide is used.

Council's current policy for the valuation of property, infrastructure, plant and equipment, investment properties and investment in TasWater (recurring fair value measurements) is set out in note 27, 36 and 26 respectively.

Non-recurring fair value measurements are made at the point of reclassification by a registered valuer.

(f) Assets and liabilities not measured at fair value but for which fair value is disclosed

Council has assets and liabilities which are not measured at fair value, but for which fair values are disclosed in other notes (refer note 40).

Council borrowings are measured at amortised cost with interest recognised in the Statement of Profit or Loss and Other Comprehensive Income when incurred. The fair value of borrowings disclosed in note 42 equates to the carrying amount as the carrying amount approximates fair value (level 2).

The carrying amounts of trade receivables and trade payables are assumed to approximate their fair values due to their short-term nature (level 2).

53 Other significant accounting policies and new accounting standards

(a) Taxation

Council is exempt from all forms of taxation except Fringe Benefits Tax, Payroll Tax and the Goods and Services Tax.

Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of Goods and Services Tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense. Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from the ATO is included as part of current receivables or payables in the Statement of Financial Position.

Cash flows are presented in the Statement of Cash Flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(b) Impairment of assets

At each reporting date, Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the Statement of Profit or Loss and Other Comprehensive Income, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation reserve in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset. For non-cash generating assets of Council such as roads, drains, public buildings and the like, value in use is represented by the deprival value of the asset approximated by its written down replacement cost.

(c) Allocation between current and non-current

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being Council's operating cycle, or if Council does not have an unconditional right to defer settlement of a liability for at least 12 months after the reporting date.

53 Other significant accounting policies and new accounting standards (continued)

(d) Comparative information

Where required by Accounting Standards or other requirements, comparative figures are adjusted to conform with changes in presentation for the current financial year.

(e) Budget

The estimated revenue and expense amounts in the Statement of Profit or Loss and Other Comprehensive Income represent revised budget amounts and are not audited.

(f) Contingent assets, contingent liabilities and commitments

Contingent assets and contingent liabilities are not recognised in the Statement of Financial Position, but are disclosed by way of a note and, if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Commitments are not recognised in the Statement of Financial Position. Commitments are disclosed at their nominal value and inclusive of the GST payable.

(h) Adoption of new and amended accounting standards

- (i) AASB 2015-3 Amendments to Australian Accounting Standards arising from the Withdrawal of AASB 1031 Materiality (effective from 1 July 2015)
 - The completion of AASB project to remove Australian guidance on materiality from Australian Accounting Standards with the issue of the final amending standard to effect the withdrawal of AASB 1031 Materiality. Guidance on materiality is now located in AASB 101 Presentation of Financial Statements. The adoption of this standard will not impact Council's accounting policies.
- (ii) AASB 2015-2 Amendments to Australian Accounting Standards Disclosure Initiative: Amendments to AASB 101 (effective from 1 January 2016)

The amendments do not require any significant change to current practice, but should facilitate improved reporting, including an emphasis on only including material disclosures, clarity on the aggregation and disaggregation of line items, the presentation and subtotals, the ordering of notes and the identification of significant accounting policies. The adoption of this standard will not impact Council's accounting policies but will result in changes to information disclosed in the financial report.

(i) Pending Accounting Standards

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2016 reporting periods. Council's assessment of the impact of the relevant new standards and interpretations is set out below.

- (i) AASB 2014-4 Amendments to Australian Accounting Standards Clarification of Acceptable Methods of Depreciation and Amortisation (effective from 1 January 2016)
 - This amendment introduces a rebuttable presumption that the use of revenue-based amortisation methods for intangible assets is inappropriate. In addition to this, there is limited opportunity for the presumption to be overcome and clarifies that revenue-based depreciation for property, plant and equipment cannot be used. The adoption of this standard will not impact Council's accounting policies.
- (ii) AASB 1057 Application of Australian Accounting Standards, AASB 2015-9 Amendments to Australian Accounting Standards – Scope and Application Paragraphs (effective from 1 January 2016)
 - The AASB has reissued most of its Standards (and Interpretations) that incorporate IFRSs to make editorial changes. The editorial changes will enable the AASB to issue Australian versions of IFRS more efficiently. As part of the reissuance, the AASB has moved the application paragraphs that identify the reporting entities and general purpose financial statements to which the pronouncements apply to a new Standard, AASB 1057 Application of Australian Accounting Standards. However, the technical application requirements have not been amended. The adoption of this standard will not impact Council's accounting policies.
- (iii) AASB 2015-6 Amendments to Australian Accounting Standards Extending Related Party Disclosures to Not-for-Profit Public Sector Entities (effective from 1 July 2016)
 - The amendment extends the scope of AASB 124 Related Party Disclosures to include not-for-profit public sector entities. It is expected this will increase Council's disclosures.

53 Other significant accounting policies and new accounting standards (continued)

(iv) AASB 2015-7 Amendments to Australian Accounting Standards – Fair Value Disclosures of Not-for-Profit Public Sector Entities (effective from 1 July 2016)

The amendment provides relief to not-for-profit public sector entities from certain disclosures about the fair value measurement of property, plant and equipment held for their current service potential rather than to generate net cash inflows that is categorised within level 3 of the fair value hierarchy. The adoption of this standard will not impact Council's accounting policies but will result in changes to information disclosed in note 52.

- (v) AASB 15 Revenue from Contracts with Customers, and AASB 2014-5 Amendments to Australian Accounting Standards arising from AASB 15 (effective from 1 January 2017). Under the new standard, a single model that applies to contracts with customers and two approaches to recognising revenue, at a point in time or over time is proposed. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognised. The new standard will apply to contracts of not-for-profit entities that are exchange contracts. AASB 1004 Contributions will continue to apply to non-exchange transactions until the Income from Transactions of Not-for-Profit Entities project is completed. The adoption of this standard is not anticipated to have a material impact on the financial report.
- (vi) AASB 9 Financial Instruments and the relevant amending standards (effective from 1 January 2018)

AASB 9 is one of a series of amendments that are expected to replace AASB 139 Financial Instruments: Recognition and Measurement. The main impact of the standard is to change the requirements for the classification, measurement and disclosures associated with financial assets. Under the new requirements the four categories of financial assets in AASB 139 will be replaced with two measurement categories: fair value and amortised cost.

Amortised cost is to be used for assets with contractual terms giving rise to principal and interest payments.

Fair value is to be used for all other financial assets. Gains or losses on financial assets at fair value are to be recognised in profit and loss unless the asset is part of a hedging relationship or an irrevocable election has been made to present in other comprehensive income changes in the fair value of an equity instrument not held for trading.

When adopted, the standard will affect, in particular, Council's accounting for its available-for-sale financial assets. Currently, Council recognises changes in the fair value of its available-for-sale assets through other comprehensive income. Under AASB 9 fair value gains and losses on available-for-sale assets will have to be recognised directly in profit or loss.

However, investments in equity instruments can be designated as 'fair value through other comprehensive income' assets. This designation is irrevocable. Council is likely to designate its investment in TasWater as 'fair value through other comprehensive income' and therefore the adoption of this standard will not impact the way movements in the fair value are accounted for.

There will be no impact on Council's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and Council does not have any such liabilities. The derecognition rules have been transferred from AASB 139 Financial Instruments: Recognition and Measurement and have not been changed.

(vii) AASB 16 Leases (effective from 1 January 2019)

AASB 16 introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligations to make lease payments. The adoption of this standard may have an impact on Council's financial report, however at this stage the extent of the impact is unknown.

Certification of the Financial Report

Glenorchy City Council Certification of the Financial Report

This financial report presents fairly the financial position of the Glenorchy City Council as at 30 June 2016, the results of its operations for the year then ended and the cash flows of the Council, in accordance with the Local Government Act 1993 (as amended), Australian Accounting Standards (including interpretations) and other authoritative pronouncements issued by the Australian Accounting Standards Board.

> Peter Brooks General Manager

Independent Auditor's Report

To the Aldermen of Glenorchy City Council

Financial Report for the Year Ended 30 June 2016

Report on the Financial Report

I have audited the accompanying financial report of Glenorchy City Council (the Council) which comprises the statement of financial position as at 30 June 2016 and the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the General Manager's certification.

Auditor's Opinion

In my opinion Council's financial report:

- presents fairly, in all material respects, its financial position as at 30 June 2016 and financial performance, cash flows and changes in equity for the year then ended
- is in accordance with the Local Government Act 1993 and Australian Accounting Standards. (b)

The Responsibility of the General Manager for the Financial Report

The General Manager is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and Section 84 of the Local Government Act 1993. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

My responsibility is to express an opinion on the financial report based upon my audit. My audit was conducted in accordance with Australian Auditing Standards. These Auditing Standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance as to whether the financial report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on my judgement, including the assessment of risks of material misstatement of the financial report, whether due to fraud or error. In making those

risk assessments, I considered internal control relevant to the General Manager's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate to the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Council's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the General Manager, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

My audit responsibility does not extend to the budget figures included in the statement of profit or loss and other comprehensive income, the asset renewal funding ratio disclosed in note 51(f), nor the Significant Business Activities disclosed in note 49 to the financial report and accordingly, I express no opinion on them.

Independence

In conducting this audit, I have complied with the independence requirements of Australian Auditing Standards and other relevant ethical requirements.

The Audit Act 2008 promotes the independence of the Auditor-General. The Auditor-General is the auditor of all Tasmanian public sector entities and can only be removed by Parliament. The Auditor-General may conduct an audit in any way considered appropriate and is not subject to direction by any person about the way in which audit powers are to be exercised. The Auditor-General has for the purposes of conducting an audit, access to all documents and property and can report to Parliament matters which in the Auditor-General's opinion are significant.

Audit Panel Report

The Glenorchy City Council Audit Panel was established in 2015. This report covers the Audit Panel's activities during the 2015-16 financial year.

The Audit Panel helps Council to fulfil its responsibilities by reviewing: financial systems and controls; strategic, financial and asset management plans; and internal control, risk management and compliance systems. These functions are set out in detail in the panel's charter.

Work program

Council's external auditor, the Tasmanian Audit Office (TAO), reviewed Council's internal control environment, audited accounting procedures and transactions, and undertook compliance based audits. TAO also audited Council's Financial Report 2015-16.

The external audit, which drives a significant part of the panel's annual work program, makes observations on internal practices and provides advice on improving business processes. The auditor also monitors Council's progress on implementing recommendations from previous external audits.

Council's internal auditor, Deloitte, conducted a number of audits based on a work program previously agreed by the panel and a special audit requested by management. These audits included reviews of strategic asset management, payroll controls, cash handling, and work health and safety. In general, the observations from the audits of asset management, payroll and cash handling were satisfactory.

However, the panel noted with concern the internal auditor's observations on work health and safety, in particular the slow progress in implementing outstanding actions from a similar audit in 2010-11. Management has since assured the panel that extra resources have been deployed to tackle the various outstanding actions on WHS. The panel will continue to monitor progress in this area.

On risk management, the panel evaluated the effectiveness of relevant processes and controls, including a reassessment of Council's Risk Register. The panel's review of risk management also included a review of the insurance portfolio and related governance policies, and a consideration of emerging risks.

Observations

The panel regularly monitors progress on implementing actions resulting from previous audits, both internal and external. Over the past year, the panel observed good progress in some areas but remains concerned about others, especially policies and procedures relating to WHS and people management. The panel will maintain its focus on these issues.

In the course of reviewing last year's Financial Report (2014-15), the panel noted some concerns about the process that led to the final report. The panel is pleased to report that those concerns have since been addressed and the process improved for preparing the 2015-16 Financial Report.

The panel was included in the process that led to the 2016-17 budget that was approved by Council in June 2016. Panel members questioned whether the budget process could be improved and have since noted a Council resolution on the same topic. In response, the panel has asked the internal auditor to review the process for preparing the annual budget and to recommend improvements.

The Audit Panel commends the auditors, Tasmanian Audit Office and Deloitte, for their efforts over the past year. Thanks also to the management team who support the Audit Panel.
