Certification of the Financial Report

The financial report presents fairly the financial position of the Glenorchy City Council as at 30 June 2013, the results of its operations for the year then ended and the cash flows of the Council, in accordance with the Local Government Act 1993 (as amended), Australian Accounting Standards (including interpretations) and other authoritative pronouncements issued by the Australian Accounting Standards Board.

Peter Brooks

Notes to and forming part of the financial statements for the Year Ended 30 June 2013

Introduction

Glenorchy City Council ("Council") was established on 24th October 1964 and is a body corporate with perpetual succession and a common seal.

Council's main office is located at 374 Main Road. Glenorchy.

The financial report is a General Purpose Financial Report that consists of the Statements of Comprehensive Income, Financial Position, Changes in Equity, Cash Flows, and notes accompanying these financial statements. The General Purpose Financial Report complies with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board (AASB), and the Local Government Act 1993 (LGA1993) (as amended). Council has determined that it does not have profit generation as a prime objective. Consequently, where appropriate, Council has elected to apply options and exemptions within accounting standards that are applicable to not-for-profit entities. As a result, the financial report does not comply with International Financial Reporting Standards.

The statements were authorised for issue by the General Manager on 14 August 2013.

1 Significant accounting policies

(a) The local government reporting entity

All funds through which the Council controls resources to carry on its functions are included in the financial statements forming part of this financial report.

Amounts received as tender deposits and retention amounts controlled by Council are included in the amount disclosed as "Other current liabilities".

(b) Basis of accounting

This financial report is prepared on the accrual and going concern bases.

This financial report has been prepared under the historical cost convention, except where specifically stated in notes 1(e), 1(g), 1(h), 1(j), 1(k), 1(l) and 1(m).

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation, and disclosure has been made of any material changes to comparatives.

All entities controlled by Council that have material assets or liabilities, such as special committees of management, and material subsidiaries or joint ventures, have been included in this financial report. All transactions between these entities and Council have been eliminated in full.

Judgements and Assumptions

In the application of Australian Accounting Standards Council is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on a regular basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Council has made no assumptions concerning the future that may cause a material adjustment to the carrying amounts of assets and liabilities within the next reporting period. Judgements made by Council that have significant effects on the financial report are disclosed in the relevant notes as follows:

Employee entitlements

Assumptions are utilised in the determination of Council's employee entitlement provisions. These assumptions are discussed in note 1(n) and note 20(a).

Defined benefit superannuation fund obligations

Actuarial assumptions are utilised in the determination of Council's defined benefit superannuation fund obligations. These assumptions are discussed in note 45.

Fair value of property, plant & equipment

Assumptions and judgements are utilised in determining the fair value of Council's property, plant and equipment including useful lives and depreciation rates. These assumptions are discussed in notes 1 (e), 1(f) and in note 25.

Investment in Southern Water

Assumptions utilised in the determination of Council's valuation of its investment in Southern Water are discussed in note 1(1) and in note 24.

Landfill / Tip Rehabilitation

Assumptions utilised in the determination of Council's landfill close-down and restoration costs are discussed in note 20.

(c) Pending accounting standards

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2013 reporting periods. Council's assessment of the impact of these new standards and interpretations is set out below.

(i) AASB 9 Financial Instruments, associated standards, AASB 2010-7 Amendments to Australian Accounting Standards arising from AASB 9 and AASB 2012-6 Amendments to Australian Accounting Standards -Mandatory Effective Date of AASB 9 and transitional disclosures (effective from 1 January 2015).

AASB 9 Financial Instruments addresses the classification, measurement and derecognition of financial assets and financial liabilities. The standard is not applicable until 1 January 2015 but is available for early adoption. When adopted, the standard will affect in particular Council's accounting for its available-for-sale financial assets, since AASB 9 only permits the recognition of fair value gains and losses in other comprehensive income if they relate to equity investments that are not held for trading. Fair value gains and losses on available-for-sale debt investments, for example, will therefore have to be recognised directly in profit or loss although there is currently a proposal by the IASB to introduce a Fair value through Other Comprehensive Income category for debt instruments.

There will be no impact on Council's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and Council does not have any such liabilities. The derecognition rules have been transferred from AASB 139 Financial Instruments: Recognition and Measurement and have not been changed.

(ii) AASB 10 Consolidated Financial Statements, AASB 11 Joint Arrangements, AASB 12 Disclosure of Interests in Other Entities, revised AASB 127 Separate Financial Statements and AASB 128 Investments in Associates and Joint Ventures and AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards (effective 1 January 2013).

This suite of five new and amended standards address the accounting for joint arrangements, consolidated financial statements and associated disclosures.

AASB 10 replaces all of the guidance on control and consolidation in AASB 127 Consolidated and Separate Financial Statements, and Interpretation 12 Consolidation - Special Purpose Entities. The core principle that a consolidated entity presents a parent and its subsidiaries as if they are a single economic entity remains unchanged, as do the mechanics of consolidation. However, the standard introduces a single definition of control that applies to all entities. It focuses on the need to have both power and rights or exposure to variable returns. Power is the current ability to direct the activities that significantly influence returns. Returns must vary and can be positive, negative or both. Control exists when the investor can use its power to affect the amount of its returns. There is also new guidance on participating and protective rights and on agent/principal relationships. Council does not expect the new standard to have a significant impact on its composition.

AASB 11 introduces a principles based approach to accounting for joint arrangements. The focus is no longer on the legal structure of joint arrangements, but rather on how rights and obligations are shared by the parties to the joint arrangement. Based on the assessment of rights and obligations, a joint arrangement will be classified as either a joint operation or a joint venture. Joint ventures are accounted for using the equity method, and the choice to proportionately consolidate will no longer be permitted. Parties to a joint operation will account their share of revenues, expenses, assets and liabilities in much the same way as under the previous standard. AASB 11 also provides guidance for parties that participate in joint arrangements but do not share joint control.

The standard will not affect Council as it does not have any joint arrangements.

AASB 12 sets out the required disclosures for entities reporting under the two new standards, AASB 10 and AASB 11, and replaces the disclosure requirements currently found in AASB 127 and AASB 128. Application of this standard by Council will not affect any of the amounts recognised in the financial statements, but will impact the type of information disclosed in relation to Council's investments.

Amendments to AASB 128 provide clarification that an entity continues to apply the equity method and does not remeasure its retained interest as part of ownership changes where a joint venture becomes an associate, and vice versa. The amendments also introduce a "partial disposal" concept. Council is still assessing the impact of these amendments.

Council does not expect to adopt the new standards before their operative date. They would therefore be first applied in the financial statements for the annual reporting period ending 30 June 2014.

(iii) AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 (effective 1 January 2013).

AASB 13 sets out a new definition of 'fair value' as well as new principles to be applied when determining the fair value of assets and liabilities. The new requirements will apply to all of Council's assets and liabilities (excluding leases), that are measured and/or disclosed at fair value or another measurement based on fair value.

Council has commenced reviewing its fair value methodologies (including instructions to valuers, data used and assumptions made) for all items of property, plant and equipment measured at fair value to determine whether those methodologies comply with AASB 13. To the extent that the methodologies don't comply, changes will be necessary. While Council is yet to complete this review, no substantial changes are anticipated, based on the fair value methodologies presently used. Therefore, at this stage, no consequential material impacts are expected for Council's property, plant and equipment as from 2013-14.

AASB 13 will require an increased amount of information to be disclosed in relation to fair value measurements for both assets and liabilities. To the extent that any fair value measurement for an asset or liability uses data that is not 'observable' outside Council, the amount of information to be disclosed will be relatively greater.

(iv) Revised AASB 119 Employee Benefits, AASB 2011-10 Amendments to Australian Accounting Standards arising from AASB 119 (September 2011) and AASB 2011–11 Amendments to AASB 119 (September 2011) arising from Reduced Disclosure Requirements (effective 1 January 2013).

This revised standard on accounting for employee benefits includes significant revisions to the recognition, remeasurement, presentation and disclosure of defined benefit liabilities/assets. These changes will not affect Council as it does not have any defined benefit plans. Whilst this standard does include revision to multi-employer plans; such as Council's multi-employer sponsored plan the Quadrant Defined Benefit Fund (Refer Note 38); these are generally disclosure related and not expected to have a financial impact.

The standard also clarifies criteria for accounting for "short-term employee benefits" including treatment of terminations. Employee benefits 'expected to be settled' (as opposed to 'due to be settled' under

current standard) within 12 months after year end are short-term benefits, and therefore not discounted when calculating leave liabilities. Annual leave and other short-term benefits not expected to be used within 12 months of end of reporting period will in future be discounted when calculating the leave liability.

(v) AASB 2012-2 Amendments to Australian Accounting Standards – Disclosures – Offsetting Financial Assets and Financial Liabilities [AASB 132 & AASB 7] (effective 1 January 2013).

This Standard amends the required disclosures in AASB 7 to include information that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity's recognised financial assets and recognised financial liabilities, on the entity's financial position.

This Standard also amends AASB 132 to refer to the additional disclosures added to AASB 7 by this

The adoption of this standard will not change the reported financial position and performance of the Council, there are no impact on disclosures as there are no offsetting arrangements currently in place.

(vi) AASB 2012-3 Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial Liabilities [AASB 132] (effective 1 January 2014).

This Standard adds application guidance to AASB 132 to address inconsistencies identified in applying some of the offsetting criteria of AASB 132, including clarifying the meaning of "currently has a legally enforceable right of set-off" and that some gross settlement systems may be considered equivalent to net settlement.

The adoption of this standard will not change the reported financial position and performance of the Council, there are no impact on disclosures as there are no offsetting arrangements currently in place.

(vii) AASB 2012-5 Amendments to Australian Accounting Standards arising from Annual Improvements 2009–2011 Cycle (effective 1 January 2013).

AASB 1 – this standard clarifies that an entity can apply AASB 1 more than once. AASB 101 – clarifies that a third statement of financial position is required when the opening statement of financial position is materially affected by any adjustments.

ASB 116 – clarifies the classification of servicing equipment. AASB 132 and Interpretation 2 – Clarifies that income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction shall be accounted for in

accordance with AASB 112 Income Taxes. AASB 134provides clarification about segment reporting.

The amendments arising from this standard are not expected to change the reported financial position or performance of the Council.

(d) Revenue recognition

Revenue is recognised when Council obtains control of the contribution or the right to receive the contribution, it is probable that the economic benefits comprising the contribution will flow to Council and the amount of the contribution can be measured reliably. Control over granted assets is normally obtained upon their receipt (or acquittal) or upon earlier notification that a grant has been secured, and are valued at their fair value at the date of transfer.

Rates, grants, and other revenue

Rate revenue relating to the current reporting period, grants, donations and other contributions are recognised as revenues when the Council obtains control over the assets comprising of these receipts or the contributions. Rate revenue obtained during the reporting period which relates to future rating periods is recognised as a liability and disclosed in note 22.

Control over assets acquired from rates is obtained at the commencement of the rating year as it is an enforceable debt linked to the rateable property. A provision for impairment on rates has not been established as unpaid rates represents a charge against the rateable property that will be recovered when the property is next sold.

Where grants or contributions recognised as revenues during the financial year were obtained on the condition that they be expended in a particular manner or used over a particular period, and those conditions were undischarged as at the reporting date, the nature of and amounts pertaining to those undischarged conditions are disclosed in note 5. The note also discloses the amount of unused grant or contribution from prior years that was expended on Council's operations during the current year.

A liability is recognised in respect of revenue that is reciprocal in nature to the extent that the requisite service has not been provided at balance date and conditions include a requirement to refund unused contributions. Revenue is then recognised as the various performance obligations under an agreement are fulfilled. Council does not currently have any reciprocal grants.

Non-monetary contributions

Non-monetary contributions (including developer contributions) with a value in excess of the asset capitalisation recognition thresholds, are recognised as revenue and as non-current assets. Non-monetary contributions below the thresholds are recorded as revenue and expenses.

User fees and charges

User fees and charges (including fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs. A provision for impairment is recognised when collection in full is no longer probable.

Sale of property, plant and equipment, infrastructure

The profit or loss on sale of an asset is determined when control of the asset has irrevocably passed to the buyer.

Interest

Interest is recognised progressively as it is earned.

Rents are recognised as revenue when the payment is due, or the payment is received, whichever first occurs. Rental payments received in advance are recognised as a prepayment until they are due.

Investment revenue from Southern Water

Investment revenue from Southern Water is recognised when Council's right to receive payment is established. Investment revenue from Southern Water is received in the form of dividends, tax equivalent payments and guarantee fees.

(e) Expense recognition

Expenses are recognised in the Statement of Comprehensive Income when a decrease in future economic benefits related to a decrease in asset or an increase of a liability has arisen that can be measured reliably.

Employee benefits

Employee benefits include, where applicable, entitlements to wages and salaries, annual leave, sick leave, long service leave, superannuation and any other post-employment benefits.

Depreciation and amortisation of property, plant and equipment, infrastructure and intangibles

Buildings, land improvements, plant and equipment, infrastructure and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets.

Land is not depreciated.

All non-current assets excluding land are depreciated over their useful lives (as determined by Council's officers) on a straight line basis. These are as follows:

Nature/type of asset	Class of asset	Useful life (years)
Roads	Road pavement surface	10 to 50
	Road pavement base	50 to 70
	Road pavement earthwork	100
	Kerb and channel	5 to 70
Stormwater and drainage	Pipes	60 to 100
	Nodes	50 to 120
	Natural water course improvements	80
	Silt basins	120
	Concrete culverts and spoon drains	50 to 120
Buildings and land improvements	Freehold buildings	10 to 95
	Other land improvements	5 to 50
Other infrastructure	Signalised or roundabout intersections	15 to 50
	Islands	35 to 50
	Car parks	5 to 60
	Bridges	40 to 80
Plant and vehicles	Infrastructure plant	5 to 75
	Fleet	3 to 5
	Mobile plant	5 to 20
	Minor plant	3 to 5
Equipment and furniture	Furniture, fittings and office equipment	3 to 20
	Computer systems and technical equipment	3 to 5
Valuation rolls	Valuation roll of the municipality	5 to 6

Repairs and maintenance

Routine maintenance, repair costs, and minor renewal costs are expensed as incurred. Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

Finance costs

Finance costs are recognised as an expense in the period in which they are incurred, except where they are capitalised as part of a qualifying asset constructed by Council. Where specific borrowings are obtained for the purpose of specific asset acquisition, the weighted average interest rate applicable to borrowings at balance date is used to determine the borrowing costs to be capitalised. Borrowing costs capitalised during the period totalled \$250, 511 (2012: nil).

Finance costs include interest on bank overdrafts, interest on borrowings, and unwinding of discounts.

(f) Recognition and measurement of assets

- 1. All material items were considered and an assessment made to determine if such items are assets.
- 2. If expenditure on an asset improved its service potential or future economic benefits (i.e. the useful life is extended) then this expenditure will

be capitalised (added to the value of the asset). If not, the expenditure will be charged to the Statement of Comprehensive Income as repairs/maintenance.

3. Asset categories of the Glenorchy City Council are specified in the asset matrix. Asset categories will be consolidated into the following broad categories of nature or type:

Land;

Buildings and other land improvements;

Equipment and furniture;

Roads;

Stormwater and drainage;

Plant and vehicles;

Valuation roll; and

Capital work in progress.

- 4. All assets that have a cost or other value that can be reliably measured will be recorded in the Statement of Financial Position at the end of the reporting period.
- 5. Council adopts depreciated replacement cost or fair value for all property assets.
- 6. Assets are recorded by identifying separately their gross carrying value and any accumulated depreciation, other than capital work in progress.

- 7. The asset capitalisation threshold adopted by council is \$1,500. Assets valued at less than \$1,500 are charged to the Statement of Comprehensive Income in the year of purchase (other than where they form part of a group of similar items which are material in total).
- 8. Where a number of like items exist with individual values below the recognition threshold for future transactions, then these items will be recognised as a group, provided their total value as a group is in excess of the capitalisation threshold for that category.
- 9. Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.
- 10. Vehicles and Plant, other than plant associated with property are recorded at cost.
- 11. All property, and plant and equipment assets which relate to property assets, are revalued to their depreciated replacement cost in accordance with the asset matrix. Revaluations will be conducted with sufficient regularity, so as to ensure they represent fair value.
- 12. If Council believes asset values within a class have materially changed between scheduled revaluations, the asset classes value will be indexed by an appropriate inflation factor.
- 13. All net revaluation increments for a class are credited directly to the asset revaluation reserve account. However, the increment is charged to the Statement of Comprehensive Income to the extent that it reverses a net revaluation decrease of the same class of assets previously recognised in the income statement. Net revaluation decrements for a class of assets will be debited to any previous revaluation increments for that class of assets, with any deficiency being charged to the Statement of Comprehensive Income.
- 14. For assets acquired after a revaluation the cost method of accounting is used. Cost is determined as the fair value of the asset given as consideration plus costs incidental to the acquisition (e.g. architects fees, engineering design fees, administration charges, direct and indirect salary costs, overheads and all other costs incurred in getting the asset ready for use) and (if applicable) the initial estimate of the cost of dismantling and removing the asset and restoring the site on which it is located. All property, plant and equipment assets that are replaced or retired are removed from the asset register. This includes the gross replacement cost of the asset and the related accumulated depreciation.

- 15. Capital work in progress is recorded at cost.
- 16. Land under roads acquired after 30 June 2008 is recognised as a non-current asset – roads where the Council holds title or a finance lease over the asset. Council does not recognise land under roads that it controlled prior to that period in its financial report.

(g) Cash and cash equivalents

For the purposes of the Statement of Cash Flows, cash and cash equivalents include cash on hand, deposits at call, and other highly liquid investments with original maturities of three months or less, net of outstanding bank overdrafts.

(h) Trade and other receivables

Receivables are carried at amortised cost using the effective interest rate method. A provision for impairment is recognised when there is objective evidence that an impairment loss has occurred.

Other receivables are payable within 30 days of issue of the account. No interest is added to overdue sundry receivables.

(i) Inventories

Inventories held for distribution are measured at cost adjusted when applicable for any loss of service potential. Other inventories are measured at the lower of cost and net realisable value. Costs are assigned by the method most appropriate to each particular class of inventory.

(j) Investment properties

Investment property, comprising car parking lots, is held to generate long-term rental yields. Investment property is measured initially at cost, including transaction costs. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefit in excess of the originally assessed performance of the asset will flow to Council. Subsequent to initial recognition at cost, investment property is carried at fair value. Changes to fair value are recorded in the Statement of Comprehensive Income in the period that they arise. Rental income from the leasing of investment properties is recognised in the Statement of Comprehensive Income on a straight line basis over the lease term.

(k) Non-current assets held for sale

A non-current asset held for sale (including disposal groups) are measured at the lower of their carrying amount and fair value less costs to sell, and are not subject to depreciation. Non-current assets, disposal groups and related liabilities assets are treated as current and classified as held for sale if their carrying amount will be recovered through a sale transaction rather than

through continuing use. This condition is regarded as met only when the sale is highly probable and the asset's sale (or disposal group sale) is expected to be completed within 12 months from the date of classification.

(I) Investment in Southern Water

Council's investment in Southern Water is valued at its fair value at balance date. Fair value was determined by using Council's ownership interest against Southern Water's net asset value at balance date based on the Final Treasurer's Allocation Order in 2011. Council has an ownership interest of 21.50% in the corporation. Any unrealised gains and losses on holdings at balance date are recognised through the Statement of Comprehensive Income to a Fair Value Reserve each year (refer note 38).

From 1 July 2013, Councils ownership interest in Southern Water will change to an ownership interest in TasWater. Refer to note 49.

Council has classified its investment in Southern Water as an Available-for-Sale financial asset as defined in AASB 139 Financial Instruments: Recognition and Measurement and has followed AASB 132 Financial Instruments: Presentation and AASB 7 Financial Instruments: Disclosures to value and present the asset in the financial report.

Council has derived returns from this investment as disclosed at note 7.

(m) Impairment of assets

At each reporting date, Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the Statement of Comprehensive Income, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation reserve in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset. For non-cash generating assets of Council such as roads, drains, public buildings and the like, value in use is represented by the deprival value of the asset approximated by its written down replacement cost.

(n) Provisions

Provisions are liabilities of uncertain timing and amount and are recognised where there is a present legal, equitable or constructive obligation as a result of a past event and when the outflow of economic benefits is probable and can be measured reliably. Provisions are reviewed at each balance sheet reporting date.

Provisions - Employee entitlements

Employee entitlements are accrued for salaries, annual leave, sick leave and long service leave in respect of services provided by employees up to the reporting date. The sick leave accrual relates to 25.00% of the outstanding balance, which is payable upon termination.

Annual, sick and long service leave

The liability for annual, sick and long service leave expected to be settled within 12 months after the end of the reporting date is recognised and measured at the undiscounted amounts expected to be paid when the liabilities are settled. Annual, sick and long service leave expected to be settled more than 12 months after the end of the reporting date is measured at the present value of amounts expected to be paid when the liabilities are settled.

When assessing expected future payments, consideration is given to expected future wage and salary levels including non-salary components such as employer superannuation contributions. In addition, the long service leave liability considers the experience of employee departures and periods of service.

The interest rates attaching as at the reporting date to Commonwealth Government guaranteed securities are used to discount the estimated future cash outflows to their present value.

The superannuation expense for the reporting period is the amount of required contributions the Council makes to the superannuation plan which provides benefits to its employees.

Classification of employee entitlements

An employee entitlement liability is classified as a current liability if the Council does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the period. This would include all annual leave and unconditional long service leave entitlements.

Provisions - Other

Employment on-costs

Employment on-costs, workers compensation and payroll tax, are not employee benefits and are recognised separately as liabilities when the employment to which they relate has occurred. Employment on-costs are included as part of the Council's 'Employee benefits' in the Statement of Comprehensive Income. The related liability is included in 'Employment on-costs provision'.

Close-down and restoration costs - Landfill

Close-down and restoration costs include the dismantling and demolition of infrastructure and the removal of residual materials and remediation of disturbed areas. Estimated close-down and restoration costs are provided for in the accounting period when the obligation arising from the related disturbance occurs, whether this is during the development

or during the operation phase, based on the net present value of estimated future costs. Provisions for close-down and restoration costs do not include any additional obligations which are expected to arise from future disturbance. The costs are estimated on the basis of a closure plan. The cost estimates are calculated annually during the life of the operation to reflect known developments, e.g. updated cost estimates and revisions to the estimated lives of operation, and are subject to formal review at regular intervals.

Close-down and restoration costs are a normal consequence of landfill operations, and the majority of close-down and restoration expenditure is incurred at the end of the life of the operation. Although the ultimate cost to be incurred is uncertain, Council estimates the respective costs based on feasibility and engineering studies using current restoration standards and techniques.

The amortisation or 'unwinding' of the discount applied in establishing the net present value of provisions is charged to the Statement of Comprehensive Income in each accounting period where material. The amortisation of the discount is shown as a finance cost.

(o) Leases

Council has no finance lease obligations at 30 June 2013.

In respect of operating leases, where the lessor effectively retains substantially all of the risks and benefits incident to ownership of the leased items, lease payments are recognised on a straight line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Refer to note 35.

(p) Payables

All of Council's expenditure, both operating and capital, is brought to account at the time the invoice is processed, after the receipt of the goods and services.

Payables are settled within specific trading terms or 30 days, whichever is earlier.

(q) Interest bearing liabilities

The borrowing capacity of Council is limited by the Local Government Act 1993. Interest bearing liabilities are initially recognised at fair value, net of transaction costs incurred. Subsequent to initial recognition, these liabilities are measured at amortised cost.

Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Comprehensive Income over the period of the liability using the effective interest method.

(r) Taxation

Council is exempt from all forms of taxation except Fringe Benefits Tax, Payroll Tax and the Goods and Services Tax.

Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of Goods and Services Tax (GST), except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from the ATO is included as part of current receivables or payables in the Statement of Financial Position.

Cash flows are presented Statement of Cash Flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(s) Allocation between current and non-current

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next twelve months, being Council's operating cycle, or if Council does not have an unconditional right to defer settlement of a liability for at least 12 months after the reporting date.

(t) Comparative information

Where required by Accounting Standards or other requirements, comparative figures are adjusted to conform with changes in presentation for the current financial year.

(u) Rounding

Dollar amounts shown in the General Purpose Financial Report are rounded to the nearest thousand. This may result in minor variations between schedules.

(v) Budget

The estimated revenue and expense amounts in the Statement of Comprehensive Income represent revised budget amounts and are not audited.

(w) Contingent assets, contingent liabilities and commitments

Contingent assets and contingent liabilities are not recognised in the Statement of Financial Position, but are disclosed by way of a note and, if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Commitments are not recognised in the Statement of Financial Position. Commitments are disclosed at their nominal value and inclusive of the GST payable.

	Note	2013 \$'000	2012 \$′000
2	Rates		
	Council uses Assessed Annual Value (AAV) as the basis of valuation of all properties within the municipality. The AAV of a property is its base amount used to calculate the annual rates. The AAV is multiplied against the rate in the dollar to give the annual rates amount.		
	The valuation base used to calculate general rates for 2013 was \$346,370,544 (2012: \$344,860,212). The 2013 rate in the dollar was \$6.9168 (2012: \$6.4057).

		2013	2012
	Note	\$'000	\$'000
The Australian Government provides Financial Assistance Grants to Council			
for general purpose use and the provision of local roads. Since 2010 the			
Commonwealth has been making early payment of the first quarterly instalment			
for the following year. In 2012 the Government announced in the Commonwealth Budget following the downturn in the economy that, "to assist local councils			
with planning for the recovery and to ensure local government has maximum			
certainty to begin planning their 2012–13 works programs", it would bring			
forward for payment to all councils in June 2012, the first two instalments of the			
2013 grant pool.			
Lanka 2014 Bardana da Carraman dikaran da karan			
In the 2014 Budget the Commonwealth announced it would continue this			
approach and include the first two instalments of the 2014 grant pool.			
In accordance with AASB1004 Contributions, Council recognises these grants			
as revenue when it receives the funds and obtains control. The effects of			
the early receipt of instalments each year has resulted in Commonwealth			
Government Financial Assistance Grants being above that originally			
budgeted in 2013 by \$1,143,263 and in 2012 by \$1,223,925. This has impacted			
the Statement of Comprehensive Income resulting in the Net surplus/(deficit)			
being higher in both years by these amounts. With fewer instalments due to			
be received in 2014, the reverse effect is expected to occur, however future payments remain at the Commonwealth's discretion.			
payments remain at the commonwealth's discretion.			
Capital grants received specifically for new or upgraded assets

	All debtors are due and payable after thirty days from the date of invoice. Council does not charge interest on debtors. Outstanding rates attract a penalty of 10% fourteen days after instalments are due. Interest of 9.97% is charged after the instalments are due and is calculated weekly on the outstanding balance. All outstanding trade receivables have been assessed as past due but not impaired.			
	, in outstanding trade receivables have been assessed as past due but not impalled.			
	An allowance has been made for those debts considered doubtful. Council evaluates unsecured debts through its debt collection process and where applicable these debts are transferred into the allowance.			
	Credit checks are completed for larger customers and all waste management customers.

	measured at present value	1,594	1,529
	(iii) Employee numbers	376	434

(b) Landfill restoration

Council operates a Landfill at Jackson Street that is deemed to have a further useful life of at least 10 years. On closure of the landfill, Council will face close-down and restoration costs. Current estimates of the respective costs are based on management advice and engineering studies using current restoration standards and techniques.

Under legislation Council is obligated to rehabilitate the landfill site to a particular standard. Current projections indicate that the landfill site will cease operation in 2023. Rehabilitation is occurring progressively with major works planned in 2018 and after the landfill closes in 2023. The forecast life of the landfill site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs.

Council does not expect to receive reimbursement from a third party.

	Note	2013 \$'000	2012 \$'000
(c)	Provision summary		
	Current		
	Employee entitlements provision	4,037	3,851

		9,061	14,706
	The loan portfolio owed by Council to Tascorp has been reviewed by Tascorp effective 30 June 2013. Following this review it was determined that having regard to the fixed rate of interest applicable for the remaining life of each loan, that the approximate net fair value (which equates to current market value) is \$9,245,837 (2012: \$15,012,373) compared to the actual value of \$9,060,884 (2012: \$14,705,984). All loan funds are secured against future council rate revenue.		
	The maturity profile for Council's borrowings is:		
	Not later than one year	133	1,482
	Later than one year and not later than five years	-	1,130
	Later than five years	8,928	12,094

Council has derived returns from Southern Water as disclosed at Note 7.

Council has an ownership interest of 21.50% in Southern Water based on the Final Treasurer's Allocation Order in 2011. Council does not have significant influence to allow it to use the equity method to account for this interest.

From 1 July 2013, Council's ownership interest in Southern Water will change to ownership in TasWater. Refer to Note 49.

	Total property, infrastructure, plant and equipment	25 _	400,333	470,011
	Valuation of land (excluding land under roads) and buildings were undertaken by the Valuer General. The valuation of buildings is at fair value based on current replacement cost less accumulated depreciation at the date of valuation. The valuation of land is at fair value, being market value based on highest and best use permitted by relevant land planning provisions.			
	Land under roads is valued at deemed cost. Council does not recognise land under roads that it controlled prior to 30 June 2008 in its financial report. Deemed cost is based on Council valuations at 30 June 2008 for land under roads in existence at that date and at the date acquired for subsequent acquisitions using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services.			
	Valuation of infrastructure assets is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

GLENORCHY CITY COUNCIL ANNUAL REPORT 12/13 (55)

Nature and purpose of reserves:

Revenue reserves

The Car parking, Public open space and Community based programs revenue reserves reflect the statutory or third party compulsory contributions that are required to be expended for specific purposes as part of the statutory or third party agreements in future periods. On that basis, a portion of the operating result must be set aside in these reserves.

The City revaluation reserve represents funds set aside to undertake a city wide revaluation as authorised by the Valuer General. This revaluation occurs every seven years.

The Landfill future close out costs reserve is maintained for the restoration or rehabilitation of land to meet planning requirements and environmental standards.

The other reserves noted are maintained to provide for recurring, non-annual expenditure (Irregular operating expenses reserve); to provide for future property, plant and equipment requirements (Property, plant and equipment); and specific expenditure not completed in the previous year (Incomplete works). Net proceeds from asset sales are set aside to fund future property purchases.

Fair value reserve

39

The Fair value reserve includes the net revaluation increments and decrements arising from the revaluation of council's share of the investment in Southern Water.

Asset revaluation reserves

The Asset revaluation reserves include the net revaluation increments and decrements arising from the revaluation of property, plant and equipment assets in accordance with accounting policy (note 1 (d)).

Where a revalued asset is sold that portion of the asset revaluation reserve which relates to that asset, and is effectively realised, is transferred directly to Community Equity.

		Note	2013 \$'000	2012 \$'000	
9	Financing arrangements				
	Bank overdraft limit		Nil	Nil	
	Bank overdraft at reporting date		Nil	Nil	
	Council does not have an overdraft limit because Council undertakes to cover any overdraft it incurs on a regular basis with cash from Council's short term investments or operating revenues.				
	The credit limit with the Commonwealth Bank of Australia for the vehicle funding facility as at 30 June:		1,000	1,000	
	Council has access to an established line of credit to the value of \$1 million. This line of credit has been approved to purchase Council's fleet of vehicles.				
	The credit limit with the Commonwealth Bank of Australia for Council's purchasing card facility as at 30 June:		280	280	

40 Financial instruments

/ \ A	1.		1

(a) Accounting	POIICY,	terring arra	COHAILIONS

Financial instruments	Accounting policy	Terms and conditions
Financial assets		
Cash and cash equivalents	Comprises cash on hand and cash in bank.	On call deposits returned an average interest rate of 3.81% (2012: 4.56%). The interest rate at balance date was 2.65% (2012: 3.40%).
	Investments are held to maximise interest returns of surplus cash.	The weighted average interest rate received for investments was 4.03% (2012: 4.99%).
	Interest revenues are recognised as they accrue.	
Trade and other receivables		
Receivables rates and charges	Rates are carried at nominal amounts due plus interest. Rate debts are a charge attached to the rateable land and are recoverable on sale, therefore, no allowance for doubtful debts is made. Interest rates are reviewed annually.	Rates are payable by 2 instalments during the year. Arrears, including deferred rates, attract interest. The interest rate was 9.97% (2012: 11.47%) at balance date for general rates.
Receivables other	Receivables are carried at nominal amounts due less any allowance for doubtful debts. An allowance for doubtful debts is recognised when collection in full is no longer probable.	General debtors are unsecured.
Collectability of overdue accounts is a	assessed on an ongoing basis.	
Financial liabilities		
Deposits	Deposits are lodged by organisations and individuals when performing work that may adversely affect Council assets. The deposits are repayable on demand or where certain conditions have been met. Deposits are recorded	
	at fair value.	
Payables		General creditors are unsecured, not subject to interest charges and are normally settled within specific tradin terms or 30 days, whichever is earlier.

Liquidity risk management

Council manages liquidity risk by maintaining adequate reserves, banking facilities and borrowing facilities. Council monitors cash flows on a regular basis to further reduce liquidity risks.

(b) Liquidity and interest rate risk table

The following table details the Council's remaining contractual maturity for its financial liabilities and expected maturity for financial assets:

Other liabilities	1,642	1,152	1,642	1,152
Total Financial Liabilities	15,827	19,411	16,012	19,717

(d) Credit risk

The maximum exposure to credit risk at balance date in relation to each class of recognised financial asset is represented by those assets as indicated in the balance sheet.

(e) Risks and mitigation

Financial risk management

Council undertakes a business risk review on a regular basis. The review evaluates Council's exposure to significant business risks with these outcomes reported to Council. The Council manages its exposure to key financial risks through this process and also through the Council Audit and Risk Committee. The committee monitors risks and policies implemented to mitigate risk exposure.

The Council does not enter into or trade financial instruments including derivative financial instruments, for speculative purposes.

Capital risk management

Council manages its capital to ensure that Council will be able to continue as a going concern while still being able to meet the needs of the community through the optimisation of debt and equity balance. The capital structure of Council consists of debt, which includes the borrowings disclosed in note 21, cash and cash equivalents disclosed in note 14 and equity including community equity and reserves as disclosed in the statement of changes in equity. Council is not subject to externally imposed capital requirements.

Operating cash flows are used to maintain and expand Council's infrastructure and other assets, as well as to make the routine repayment of maturing debt. Council borrow from Tascorp to meet anticipated funding requirements.

Market risk is the risk that the fair value or future cash flows of the financial instruments will fluctuate because of changes in market prices. The Council exposures to market risk are primarily through interest rate risk with only an insignificant exposure to other price risks and no exposure to foreign currency risk. Components of market risk to which Council is exposed are outlined below.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Interest rate risk arises from interest bearing financial assets and liabilities that Council use. Non-derivative interest bearing assets are predominantly short term liquid assets. The interest rate liability risk arises primarily from long term borrowings at fixed rates which exposes Council to fair value interest rate risk.

Council manages the interest rate exposure on the net debt portfolio by appropriate budgeting strategies and obtaining approval for borrowings from Treasury each year.

Council maintains policies to guide management in the undertaking of borrowings and the investment of short term, surplus funds.

Council's Borrowing Policy establishes a structure to ensure the organisation:

- minimises its costs of borrowings;
- minimises its liquidity risk;
- where possible, that the characteristics of debt match those of the assets being funded; and
- borrowing activities operate within Council's legislative and common law responsibilities.

Council's Investment of Short Term Funds Policy establishes a structure to ensure the organisation:

- maximises interest earned on surplus funds within prudent risk limits;
- minimises its liquidity risk; and
- investment activities operate within Council's legislative and common law responsibilities.

Maturity of investments is staggered to provide for interest rate variations and to minimise interest rate risk.

Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause Council to make a financial loss. Council has exposure to credit risk on all financial assets included in the Statement of Financial Position. To help manage this risk Council:

- has a policy for establishing credit limits for the entities it deals with;
- may require collateral where appropriate; and
- only invest surplus funds with financial institutions which have a recognised credit rating of A- or above.

Credit risk arises from Council's financial assets, which comprise cash and cash equivalents, and trade and other receivables. Council's exposure to credit risk arises from potential default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. Exposure at balance date is addressed in each applicable policy note. Council generally trades with recognised, creditworthy third parties, and as such collateral is generally not requested, nor is it Council's policy to securitise its trade and other receivables.

Trade and other receivables consist of a number of customers, spread across the consumer, business and government sectors. Ongoing credit evaluation is performed on the financial condition of customers and, where appropriate, an allowance for doubtful debts is raised.

Liquidity risk

Liquidity risk includes the risk that, as a result of operational liquidity requirements the Council:

- will not have sufficient funds to settle a transaction on the date;
- will be forced to sell financial assets at a value that is less than what they are worth; or
- may be unable to settle or recover a financial asset at all.

To help reduce these risks Council:

- has a liquidity policy which targets a minimum level of cash and cash equivalents to be maintained;
- monitors budget to actual performance on a regular basis; and
- set limits on borrowings in accordance with Council's borrowing policy.

The Council's exposure to liquidity risk is deemed insignificant based on prior periods data and current assessment of risk.

(f) Sensitivity Disclosure Analysis

Taking into account past performance, future expectations, economic forecasts and management's knowledge and experience of the financial markets, the council believes the following movements are 'reasonably possible' over the next 12 months (base rates are sourced from the Commonwealth Bank of Australia):

A parallel shift of +0.50% and -0.50% in market interest rates (AUD) from year end rates of 2.65%.

The following table discloses the impact on net operating result and equity for each category of financial instruments held by Council at year-end, if the above movements were to occur.

(a) Eair Value Hierarchy						

(g) Fair Value Hierarchy

(i) The table below analyses financial instruments carried at fair value by valuation method

The different levels have been defined as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs other than quoted prices included within level one that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).
- Level 3 inputs for the asset or liability that are not based on observable market data.

		2013	2012
42	Remuneration of Aldermen	\$	\$
	Total allowances paid to the Mayor, Deputy Mayor and Aldermen	379,253	364,300
	Total expenses paid to all Aldermen	21,739	16,628
		400,992	380,928

Expenses include vehicle, travel, telephone, and other out of pocket expenses.

Related party transactions:

The usual nature of the transactions between Aldermen and Council is:

- to pay rates and other charges;
- to recoup expenses and allowances owing; and
- to meet the costs of attendance at various Council events, seminars or functions.

All of these were normal transactions. Where transactions between Council and the Aldermen are of a commercial nature, they are conducted on a normal arms length basis.

43 Remuneration of Key Management Personnel holding senior positions

The number of Key Management Personnel holding senior positions whose remuneration falls within the following bands:

Existing employees	2013	2012
\$200,001–\$250,000	1	1
\$150,001–\$200,000	4	3
\$100,001–\$150,000	-	1
Former employees	2013	2012
\$350,001–\$400,000	-	1
\$300,001–\$350,000	-	1
\$80,001-\$100,000	-	1

Former employees include remuneration arising from termination of employment.

Remuneration includes:

- salary payable;
- employer contribution to employee's superannuation;
- value of the use of any motor vehicle provided; and
- the value of any other allowance or benefits paid or payable to, or provided for the benefit of the employee.

44 Special committees

Glenorchy City Council recognises a special committee when the committee has been adopted by Council under section 24 of the Local Government Act 1993. Below are the committees supported during the reporting period:

- the Audit and Risk Committee:
- the City of Glenorchy Australia Day Award Nominations Committee;
- the Code of Conduct Committee;
- Community Precincts;
- the Cultural Diversity Advisory Committee;
- the General Manager Performance Review Committee;
- the Glenorchy Arts and Culture Advisory Committee;
- the Glenorchy City Council Access Committee;
- the Glenorchy Emergency Management Committee;
- Glenorchy Planning Authority;
- the Glenorchy Tourism Taskforce;
- the Glenorchy Tracks, Trails and Cycleways Committee;
- the Safer Communities Committee;
- the Sport and Recreation Advisory Committee; and
- the Youth Task Force.

All expenses associated with these committees have been included in the accounts of Council.

Community precinct committees have been established by Council as special committees and are provided with \$50 per annum to cover expenses. These expenses have been included in the accounts of Council.

The Glenorchy Brass Band are a special committee of Council and maintains its own books and records and operates a separate bank account.

The operations of the Glenorchy Brass Band during 2012/2013 were as follows:

	Income 2013 \$'000	Expenditure 2013 \$'000	Net result 2013 \$'000	Cash at bank 30 June 2013 \$'000
Glenorchy Brass Band	18	10	8	11

These results have been consolidated into Council's financial statements.

Defined benefit superannuation plans

The Council makes superannuation contributions for a number of its employees to the Quadrant Defined Benefits Fund, which is a sub fund of the Quadrant Superannuation Scheme. The Defined Benefits Fund has been classified as a multi-employer sponsored plan. As the Fund's assets and liabilities are pooled and are not allocated by employer, the Actuary is unable to allocate benefit liabilities, assets and costs between employers. As provided under paragraph 32(b) of AASB 119, Council does not use defined benefit accounting for these contributions.

For the year ended 30 June 2013 Council contributed 9.5% of employees' gross income to the Fund. Assets accumulate in the fund to meet member benefits as they accrue, and if assets within the fund are insufficient to satisfy benefits payable, the Council is required to meet its share of the deficiency.

Bendzulla Actuarial Pty Ltd undertook the last actuarial review of the Fund at 30 June 2011. The review disclosed that at that time the net market value of assets available for funding member benefits was \$57,588,247, the value of vested benefits was \$52,794,839, the surplus was \$4,793,408, and the value of total accrued benefits was \$57,330,437. These amounts relate to all members of the Fund at the date of valuation and no asset or liability has been recorded in the Quadrant Superannuation Scheme's financial statements for Council employees.

The financial assumptions used to calculate the accrued benefits for the Fund were:

0% pa for 2011/12 and 7% pa thereafter Net investment return

Salary inflation 4.0% pa Price inflation n/a

The actuarial review concluded that:

- 1. The value of assets of the Quadrant Defined Benefit Fund was adequate to meet the liabilities of the Fund in respect of vested benefits as at 30 June 2011.
- 2. The value of assets of the Fund was adequate to meet the value of the liabilities of the Fund in respect of accrued benefits as at 30 June 2011.
- 3. Based on the assumptions used, and assuming the Employer contributes at the levels described below, the value of the assets is expected to continue to be adequate to meet the value of the liabilities of the Fund in respect of vested benefits at all times during the period up to 30 June 2014.

The Actuary recommended that in future the Council contribute 9.5% of salaries in 2012/13, 10.5% of salaries in 2013/14, and 11% of salaries in 2014/15.

The Actuary will continue to undertake a brief review of the Fund financial position at the end of each financial year to confirm that the contribution rates remain appropriate. The next full triennial actuarial review of the Fund will have an effective date of 30 June 2014 and is expected to be completed late in 2014 or early in 2015.

Council contributes to other accumulation schemes on behalf of a number of employees, however the Council has no ongoing responsibility to make good any deficiencies that may occur in those schemes.

During the year Council made the required superannuation contributions for all eligible employees to an appropriate complying superannuation fund as required by the Superannuation Guarantee (Administration) Act 1992.

During the reporting period the amount of contributions paid to defined benefits schemes was \$207,066 (2012: \$204,393), and the amount paid to accumulation schemes was \$1,912,952 (2012: \$1,988,255).

Road, plant, parking and other road transport

On and off street parking, bikeway maintenance, roadside revegetation and landscaping and footbridges.

Other economic affairs

Saleyard and markets, development support and incentives, market and promotion – tourism events and Central Business District.

Other purpose

Unallocatable private works and other.

49 Events occurring after balance date

(a) New Water Corporation

From 1 July 2013 a new statewide water and sewerage corporation trading as TasWater, commenced in accordance with the *Water and Sewerage Corporation Act 2012*. TasWater will take over the water and sewerage services and assets currently operated by Ben Lomond Water, Cradle Mountain Water and Southern Water. It will also manage the billing, IT and payroll functions currently managed by the industry's service firm, Onstream.

Council holds an equal representation with all other councils. No change is expected to current investment treatment, with Council receiving a proportional share in the new corporation. Council will continue to derive returns in the form of dividends, guarantee fees and tax equivalents. Any changes to Council's investment in TasWater is unquantifiable at the date of signing and will be treated as a non-adjusting event and accounted for in the next financial year.

Independent Auditor's Report

To the Aldermen of Glenorchy City Council

Financial Report for the Year Ended 30 June 2013

Report on the Financial Report

I have audited the accompanying financial report of Glenorchy City Council (Council), which comprises the statement of financial position as at 30 June 2013 and the statements of comprehensive income, changes in equity and cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the General Manager's statement.

Auditor's Opinion

In my opinion Council's financial report:

- (a) presents fairly, in all material respects, its financial position as at 30 June 2013 and financial performance, cash flows and changes in equity for the year then ended; and
- (b) is in accordance with the Local Government Act 1993 and Australian Accounting Standards.

The Responsibility of the General Manager for the Financial Report

The General Manager is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and Section 84 of the Local Government Act 1993. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

My responsibility is to express an opinion on the financial report based upon my audit. My audit was conducted in accordance with Australian Auditing Standards. These Auditing Standards require that I comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance as to whether the financial report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of risks of material misstatement of the financial report, whether due to

...1 of 2

Strive | Lead | Excel | To Make a Difference

fraud or error. In making those risk assessments, the auditor considers internal control relevant to the General Manager's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate to the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Council's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the General Manager, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

My audit is not designed to provide assurance on the accuracy and appropriateness of the budget information in Council's financial report.

Independence

In conducting this audit, I have complied with the independence requirements of Australian Auditing Standards and other relevant ethical requirements. The Audit Act 2008 further promotes independence by:

- · providing that only Parliament, and not the executive government, can remove an Auditor-General, and
- · mandating the Auditor-General as auditor of State Entities but precluding the provision of non-audit services, thus ensuring the Auditor-General and the Tasmanian Audit Office are not compromised in their role by the possibility of losing clients or income.
